

FCC Chairmen

Dear FCC,

We the undersigned are concerned about the recently announced acquisition of T-Mobile by AT&T. As consumers we want a choice in who provides our wireless service. We want that choice to include companies with high quality service and customer satisfaction.

AT&T is rated as one of the worst wireless providers in customer satisfaction. T-mobile is rated highest. Allowing AT&T to acquire T-Mobile will 1) severely decrease the overall quality of the wireless provider industry, 2) limit consumer choice to only 3 main providers (AT&T, Verizon, and Sprint), 3) allow AT&T to move closer to monopolizing the wireless industry, and 4) decrease competition in the wireless service industry.

This acquisition allow AT&T to gain considerable market control at the cost of consumers. We ask that you protect our choice and do not approve AT&T's acquisition of T-Mobile.

9.	DJ AUDACITY	Lancaster, CA	PLEASE REPOST THIS Higher phone prices for everyone. The biggest question is whether AT&T, Verizon and Sprint will see the contraction in their space as an opportunity to raise prices on wireless service. After all, if the remaining three players all decide to boost rates at the same time, well, there's not much we can do about it. Other than stop using... our iPhones, of course, which isn't practical. AT&T appears to be ready to go on the price-hike front, already making the case that prices have fallen through a decade of mergers in the industry. That has public-interest groups worried that a rate increase is coming as soon as the deal is approved. <i>(continues on next page)</i>

45.	Justine Aldridge	San Diego, CA	I was with Cingular until they were gobbled up by AT&T. So I switched from AT&T to TMobile because AT&T's customer service is absolutely horrible. I just recently switched my home landline from AT&T to Time Warner phone after 10 years of horrible customer service because I never had any other choices until now. I vowed I would never spend another penny with AT&T. Now my cell phone is going to switch back AT&T? Never! I will leave the minute this merger goes through, even if I have to pay for early termination. I love TMobile's customer service - its the best I've ever experienced.
46.	Jean-Luc Morano	San Jose, CA	I left AT&T because of the complete absence of customer service as well as the extremely poor quality of wireless connections in our area. If this deal goes through I will either get the cheapest prepaid phone from Metro/Virgin/Sprint or abandon my cell phone altogether. There is no way I will go back to AT&T.

69.	Daniel Moore	Thornton, CO	Tens of thousands of Tmo employees are going to be out of a job. MILLIONS of devices are now going to become toxic waste as li-ion batteries and chemical filled chassis are dumped because they will be rendered useless. This is the absolute worst possible move that could be made in the wireless world, and it will do NOTHING but harm to our already unstable economy. The FCC/DOJ does NOT need to approve the creation of a monopoly or the sending of nearly 40 billion dollars to line German pockets and pay off European debts.
70.	Kyle Dickerson	Livermore, CA	T-Mobile is the only US carrier that allows you to get a reduced-price plan with no contract if you aren't interested in subsidizing an expensive phone purchase every 2 years. I have no faith that AT&T will maintain that plan option since AT&T currently has no similar competing plan. Losing these plan options is a serious step in the wrong direction for consumer choice in the wireless market. We will sadly return to a time when 2-year contracts and high prices are the only option, making wireless phone service less affordable in already tough economic times.
71.	Caroline Nogay	Hamburg, Germany	
72.	Jeremy Waldeck	Durham, NC	T-mobile's customers DO NOT WANT THIS. If we wanted to be on AT&T we'd have bought AT&T phones / plans. None of us (some know it and some don't) want to be served up a helping of AT&T corporate monopoly.
73.	Johnathon Fretz	Duluth, GA	I strongly believe the impact of att and tmobile merger will greatly affect the wireless industry. Creating a monopoly and eventually raise prices forcing consumers to make decisions with less options. It would reduce the advancement of technology with in turn many jobs lost in this already tough economy
74.	Andrea Pereira	stoneham, MA	I will never be a at&t customer! They are thieves! Please, stop this merger!
75.	James McPartland	Tulsa, OK	Please do not let the AT&T/T-Mobile Merger go through. It's bad enough having two companies (AT&T and Verizon) control too much of the market. It has to stop NOW.
76.	Paul McCluskey	Daytona Beach, FL	I am signing this petition to voice my opposition to the merger between AT&T and T-Mobile. I am deeply troubled about the erosion of choice for the consumer within the telecommunication market that this represents. There is no doubt in my mind that this merger will result in higher costs to consumers due to a reduction in competition within the market place. If this merger goes through, AT&T and Verizon will control 80% of the wireless market between them, this amount of control concentrated in so few hands, particularly when it comes to communication and media is <i>(continues on next page)</i>

	Name	From	Comments
76.	Paul McCluskey	Daytona Beach, FL	<i>(continued from previous page)</i> absolutely unacceptable. Add to this legitimate consumer concerns about the poor service AT&T delivers to their customers, particularly in comparison to T-Mobile and I believe that one can only reach the conclusion that this merger would be detrimental to the public interest and must not be allowed to take place.
77.	Max Ibarra	chicago, IL	
78.	Allan Couch	Swifton, AR	
79.	alex glazov	Sunnyvale, CA	
80.	Donovan Mikrot	Denver, CO	I switched to T-Mobile recently because I've had such bad experiences with AT&T and Verizon, only to find out that I'll be forced to use AT&T again in a year. This merger is bad for the consumer and will only result in higher prices and lower quality phones with only marginally better service. Please don't let this happen!
81.	joseph silverman	san francisco, CA	
82.	Tyler Kresila	Olmsted Falls, OH	
83.	D. Tran	Searcy, AR	I have had tmobile since 2006 and love their service. i was previously with cingular which got bought over by AT&T and wireless service and customer service was horrible. STOP THE MERGER! AT&T will raise rates through the roof since they have taken out a competitor.
84.	Brian Melton	Philadelphia, PA	No! No! No! T-Mobile is the only wireless provider where I've been 100% satisfied. There is a reason I'm no longer with AT&T, and I will not go back. Please put a stop to this!
85.	Wassiliisia Gumlickpuk	Anchorage, AK	
86.	Markus Lanxinger	Los Angeles, CA	say yes to competition, say no to AT&T.
87.	Jack Doan	frisco, TX	T-Mobile rocks! Don't let AT&T screw us over!
88.	Vicki Richman	New York, NY	AT&T, collaborating with its spin-off Verizon, drove Northpoint DSL into bankruptcy. Shareholders did a class action. AT&T/Verizon settled for enough to pay our legal fee. Don't let AT&T do the same to T-Mobile. Don't let AT&T deprive us of our T-Mobile alternative to the acquisitive bully. Stop the merger!
89.	Christina Werder	Reno, NV	This deal is ludicrous! It leaves us customers with no decent, affordable cell providers! Verizon and ATT are ridiculously expensive, and Sprint is just terrible! Do NOT let this happen. Remember, without customers, you have no provider!
90.	Tulio Mesa	Jackson Heights, NY	Please do not allow ATT Tmo merger, this is wrong due to the single act that ATT will gain all GSM phones and there will no longer be a GSM competition. ATT will build a <i>(continues on next page)</i>

96.	Kevin Saelee	Merced, CA	THIS IS A MONOPOLY!!!!
97.	Perry Jones	Salt Lake City, UT	I have been with Tmobile since they were VoiceStream and have loved them. Their customer service representatives are the best. I was with AT & T for only a short time. The customer service was horrible. They nickel and dimed me for everything. They made it very easy to get signed up and very difficult to get out. Please don't approve the merger. I don't want their service and I don't want to get service from anyone else. Thank you.
98.	Antun Karlovac	San Francisco, CA	This is a bad deal for us consumers. I'm a T-Mobile customer and having T-Mobile as a viable GSM alternative is important to me. I do not consider Verizon/Sprint as alternatives since they rely on a technology that doesn't really work in many of the countries I'm likely to visit. If AT&T buys T-Mobile, I'll be stuck with one single carrier. I specifically want to avoid AT&T, and the competition between them now means benefits for me - T-Mobile offers unlimited data (albeit with some restrictions on extreme usage) and they have better service.
99.	Cynthia Finley	Issaquah, WA	
100.	Patricia Geller	Westbury, NY	
101.	Randy Harrison	norfolk, VA	This is unfair and down right sneaky. i am a sales rep and i hate this idea. yeah better coverage but at the cost of bad customer service, no thank you.
102.	Israel Mendoza	Corcoran, CA	
103.	R Rang	Austin, TX	Tmobile customer over 5 yrs. I will leave if this becomes AT&T. Tmobile consider customer loyalty and do not allow AT&T to move closer to a monopoly. Otherwise, goodbye.
104.	Heather Schneider	chicago, IL	IF this merger goes thru that ATT will be the ONLY US carrier to offer post paid GSM SIM card service. If I wanted to be an ATT customer I would have a long time ago!
105.	Maureen Olmsted	Tempe, AZ	As a T-Mobile customer who explicitly left AT&T (despite being an AT&T shareholder), I am strongly opposed to this acquisition.

106.	Juan Garcia	Chicago, IL	I have been a T-Mobile customer for over 7 years. I am starting to think that I should go over to Verizon already, but I don't want to leave T-Mobile. I hope that T-Mobile stays T-Mobile. I pay way less than the cheapest plan offered at this moment. This will only hurt the economy and the people that have T-Mobile
107.	Hasanbelli Hysen	Brooklyn, NY	Are you serious? Get outta here, keep tmobile the way it is!
108.	Michelle Segarra Beltran	Juncos, PR	T-Mobile please don't go. Say NO to AT&T
109.	Mazahir Plumber	Jersey City, NJ	Please do not let the GSM monopoly go ahead.
110.	Mark Raphael	Margate, FL	
111.	Horia Saulean	NY, NY	Bad all around!
112.	RUDY RAMIREZ	ALHAMBRA, CA	I have been with t-mobile for 7 or 8 years and I been satisfied and I dont want any changes.
113.	Andrew Keys	herndon, VA	never, never, never will i be apart of that crap company i protest with all of t-mobile's loyal customer's me being one of them i've been with them for almost 8 years and i'll be here till the end
114.	Hudson Jackson II	Manassas, VA	This purchase of T-Mobile by AT&T will ultimately not be beneficial to consumers. For the entire time T-Mobile has been in existence, there have been better (and more affordable) rate plans and phones, better coverage, and better customer service than what could be had with AT&T. If this "merger" goes through, there will definitely be less choice, a drop in quality of cell phone service, and a decline in customer service, not to mention a serious inconvenience from current T-Mobile subscribers having to switch to phones which are compatible with AT&T's network. Please do not approve the acquisition of T-Mobile and help keep choice and competition alive in wireless service industry. Thank you.
115.	Leigha McLean	Tullytown, PA	I REFUSE to have anything to do with AT&They Don't Care About Customers.
116.	Carrie Shackelford	Lavergne, TN	Won't this fall into the category of anti-trust laws? \$39,000,000,000, our loyalty to T-Mobile is worth more than this. AT&Sleaze, won't be getting any of my business if our elected officials approve this monopoly deal!!
117.	Aaron Nguyen	Santa Ana, CA	I don't want to pay more for less. Thanks a lot DT.
118.	Ryan Satterfield	Fairborn, OH	Allowing this merger to go forward will both degrade quality and limit customer choice of US cell service. This will also have long term effect on the economy by eliminating the only carrier that pushed for better quality at lower prices, which nudged the industry's prices to its current lows.

123.	Paul Whitman	Southborough, MA	This is just crazy, loosing T-Mobile will ruin the wireless industry. We need competition.
124.	Marinela Samarxhi	Worcester, MA	I have about 10 years with T- Mobile and i am very happy with it, but i hate AT&T and i never be part of their "relationship" DON'T BE PART OF AT&T T-MOBLIE!!!
125.	mark caldeira	patterson, CA	if at&t took over whats to stop them from gouging the market?, as it stands now only t-mobile and sprint are helping keep costs lower with their pricing.Once t-mobile and then sprint are gone we can surely expect to be paying out of the nose for cell phone service, good bye cell phones and hello home phones again!!
126.	Maria Adina	Cerritos, CA	I believe T-mobile has been the best mobile service carrier. I've been with T-mobile for a few years now and have been happy with them. I've been with other mobile carriers and did NOT like them at ALL this is why I moved over to T-mobile. I do not want to see T-mobile being bought out by AT&T. AT&T service and customer care does not meet my expectations and that is why I am here with others signing this petition in hopes to STOP the merging. If you care about our concerns you highly reconsider in approving this!
127.	scott barzycki	lackawanna, NY	i just bought a phone for \$600 off contract. if this takes place, my resale value will be zero dollars because the tmobile 4g frequencies cannot be used on any other carrier. this is a crime. and mainly because i was sold a phone that will be worthless in a year. most people keep their phones for at least 2 years. and now i'll be forced to switch carriers,sign a new contract which i do not want to do, and shell out money for a new phone. to top it off, att's plans are more money for lesser data and minutes than i currently get with tmobile. millions of users are in the same boat i'm in, but may not know about this site to voice their concerns.

132.	Danyelle Whitt	New Market, AL	As a T-Mobile customer I am outraged at this merger. If this merger goes thru I will be leaving. I have been with T-Mobile for 15 years and when I got cell service 15 yrs ago if I wanted AT&T I would have got it then. Didn't want it then and don't want it now. Read the forum T-Mobile has set up and you will see how many people don't want this. Plus this will give AT&T a monopoly.
133.	Chris Hall	Cleveland, OH	If I wanted AT&T, I would have signed a contract with them. Personally I am not sure I can afford their service plans unless they are totally revamped. Independent carriers are looking more and more attractive at this point.

I will definitely consider switching if this merger takes place and changes too much.
139.	Reginald Rosser	Waukegan, IL	I had At&t back in september and switched to T-Mobile because att is over priced and crappy customer service! If they to combine I promise you I will be switching over to sprint and selling my HD2 over seas!

Compare to other first world country's our Cell phone call & Data rate much more higher. AT&T never cared their customer. AT&T became very big and they need to be break-up again like 1984.In this economy people are looking for a job, we don't need any more merger.

163.	Tiffany Halstead	phoenix, AZ	I have been a loyal t-mobile customer since it began. I even had the account when they were voicestream! Please do not let my 12 years of loyalty be cast aside and forgotten!
164.	Dora Caulfield	Lawrenceville, GA	We have 4 phones with unlimited talk/text/web on a no contract plan with T-Mobile and are thinking about adding the final (fifth) phone to our family plan. I do not see any upside for us as a T Mobile customer unless you consider having to replace all the phones (3g), signing a contract, paying more for the service and having our data limited as an UPSIDE! This really stinks, we have been a customer of Tmobile for 11 years (Airtouch) and feel like we are being sold out to the terrible on all fronts AT&T.
165.	Colt Jesse	Port Saint Lucie, FL	This merger is bad. Bad for the consumers. This merger will put AT&T as a monopoly of all GSM technology in the United States. DO NOT ALLOW THIS MERGER!

167.	Kelsea Sloper	Tangent, OR	AT&T is overpriced and has terrible customer service. I think this merger is a terrible idea, we don't need a duopoly between Verizon and AT&T and that's exactly what this merger will create. Let people have a choice, don't strong arm it away by forcing us to choose between two companies. We all know the smaller companies can't truly compete with big business like Verizon and AT&T.

168.	Robert Sanchez	anytown, NJ	Bad move TMO, what a smack in the face to your loyal customers, and very loyal employees. Don't let shareholder greed drive this ridiculous takeover. Please stop the madness!!
169.	Phyllis Turner	ankeny, IA	I dont want to have to pay more for less service from AT&T. I dont have the income to pay more for LESS service. I dont want my unlimited talk and text taken away. I have a family member with a life threatening medical condition so the my cell is vital, if AT&T takes over I wont be able to pay for the service and have the type of plan that I need. I considered AT&T before choosing TMobile. AT&T was Overpriced and had terrible service in all aspects. Please don't let AT&T become the monopoly. What happened to free enterprise? TMobile has the most affordable plans and services. TMOBILE Please say NO!!
170.	Dan Johnson	Camden, NJ	everyone knows that AT&T does what they want to do with its customers,i have been with Tmobile since they were Voicestream(1994) and have nuthin but great things to say about service and price.THEY STICK TO THEIR WORD.....! if they merge,Verizon here i come!
171.	Christopher Jones	Manville, NJ	
172.	kim cerrone	Ballwin, MO	please please please don't take away my t-mobile
173.	Lisa Salazar	Foster City, CA	
174.	Orlando Faria	Perth Amboy, NJ	If they agree to merge, I will be leaving them
175.	Craig Bennett II	cocoa beach, FL	
176.	Momchil Kyurkchiev	San Francisco, CA	
177.	Glenn Catenacci	Oakland, NJ	I left AT&T years ago because of their high prices, poor service, and dropped calls. I've been a happy T-Mobile (prepaid) customer since. Pls do not allow this to become a GSM monopoly.
178.	Marla Ayala	houston, TX	FU@K AT&T STOP THIS FROM HAPPENING!!!!!! or I will cancel my phone
179.	lori walters	cleveland, OH	We need t-mobile. They are the best cellphone compnay I have been with. And they have a great customer service. I left att to go with tobile because att sucks and there customer service is terrible. Keep t mobile
180.	Gina Keeley	Myrtle Beach, SC	
181.	John Norcross	West Palm Beach, FL	AT&T is over priced and and not consumer friendly. Poor Customer Service!!!
182.	Tamithe Beyer	Tipp City, OH	
183.	Kristen Dixon	Bolingbrook, IL	
184.	Mike Monson	Eagan, MN	The merger will leave only 1 GSM provider, and remove the only value-priced carrier.

185.	Jasminka Jukic	Palos Hills, IL	i do not believe that AT&T should be allowed to take over T-Mobile. There is a reason why customers are with T-Mobile and not AT&T. If we, T-Mobile customers, wanted to be with AT&T we would have ended our contract with them and went to AT&T, however that is not the case. This merge should not happen
186.	anthony pancurak	New kensington, PA	will be leaving tmobile if they merge
187.	Janelle Chester	Brooklyn, NY	Our pockets are already being raped! Give us a break!
188.	Carole Thompson	Kansas City, MO	Like many other comments...I too left ATT a few years back due to their horrible customer service, a great deal of dropped calls and their misrepresentation of rollover minutes. Giving AT&T power of this market will empower them to take advantage of so many others. If they merge I will take my business elsewhere.
189.	Simon Waddington	Oakland, CA	I'm a long time T-Mobile customer and they stand for everything that AT&T is not - if I wanted AT&T service I'd have switched to them already. I strongly believe this merger will create a GSM monopoly that forces every GSM phone owner to use AT&T, decreases competition and raises prices and freedom of consumers to choose a service that matches their needs. It will also decrease innovation in the wireless market and make the birth of technologies like Android less likely. Please DO NOT approve the merger!
190.	Johnny Cardenas	Norman, OK	
191.	Ryan Mondshour	Saint Cloud, FL	Loyal customers expect loyal customer service! Please don't sell out to the competition. There's so many reasons why so many love an choose T-Mobile over the others. Stay strong, Stay independent but most of all stay loyal to the many who stand up an support you.
192.	David Thompson	El Segundo, CA	A comparable at&t plan will cost me 30% more than T-mobile. For me at&t has always been the wrong choice. DOJ / FCC please block this sale!
193.	Chad Comer	Nashville, TN	NO ATT!
194.	Brian Candelora	Meriden, CT	The last thing middle america needs is higher monthly costs and less jobs!
195.	Aeisha Mccrea	philadelphia, PA	
196.	cory lee	brooklyn, NY	I need my job!
197.	Denise Garth	Huntsville, AL	Please do not, and I mean do not let AT&T buy out T-Mobile. I have been with T-Mobile for 7 years and love the quality of service and also the customer service I have received from them. I used to be an AT&T customer before going to T-Mobile and their services suck. They add all these hidden fees which I think are illegal. Please consider the customers like myself before you let AT&T monopolize the cellphone industry.

198.	Janine Sotelo	San Diego, CA	Please don't allow this monopoly to happen!! Consumers need competition in the marketplace. This will be very bad for our economy and the digital divide. Please stop this merger!!!
199.	Donald williams	gilbrt, AZ	No to att. Keep tmobile
200.	David Bruce	Stone Mountain, GA	T-Mobile is the only affordable prepaid service around, and AT&T will reduce my choice as a consumer by forcing their hand on the market.
201.	Paul Kay	OS, MS	
202.	laura jones	Eagan, MN	I have been a T mobile customer since living in Germany in 1999. I have never been unhappy with the service and I will be leaving if AT&T takes over.
203.	ROBERT GALINDO	SAN JUAN, Puerto Rico	PLEASE, WE DO NOT WANT AT&T AS LEADER IN WIRELESS PLAN PRICES. T-MOBILE = FREEDOM, AT&T NOT
204.	June Kuwatani	Carmel, CA	
205.	Kimberlee Kobernik	Las Vegas, NV	I have been a customer of all three other cellular providers and can honestly say that T-Mobile is far superior in customer service and price. Allowing them to be purchased would be a terrible injustice to us all.
206.	Lori Matzke	Arllington, MN	AT&T is trying to create a monopoly in the market! I JUST SWITCHED to T-Mobile in December after AT&T was handed my account by government regulators. Now I have to switch again to get away from them! UNFAIR TO CONSUMERS!! We want to have a CHOICE, or my next option will be no cell phone at all.
207.	susan martin	laveen, AZ	
208.	Angelique Snow	San Jose, CA	
209.	Lee Ross	Phillipsburg, NJ	I compare prices every time my contract is up for renewal and always stay with t-mobile. I'm very happy with their customer service and cell service. I can't say the same for AT & T. Please do not allow the merger.
210.	Donette Mullen	Smithville, MO	I have been a loyal customer of T-Mobile for almost 10 years and have been very happy with their customer service, rates and products. They are top rate. Please do not approve this merger. T-Mobile please stay independent and loyal to us your loyal customers.
211.	Shana Weeks	Corland, IL	I have been with Tmobile 7 years and they have excellent customer service and phone upgrades. Please do not sell out to AT&T. Think about your customers and stop leaving us in the dark.
212.	Rachael DiYulio	Bristol, CT	Don't ruin a good thing!

213.	Angelo E	Edison, NJ	How in the world can this be good for the consumer. I urge the regulators to stop this merger. I am confident you all know that prices for millions of costumers will go up. Competition is good and necessary, this is going to create a GSM Monopoly. Come on regulators get with the program and act in the best interest of the people of the Unites States.
214.	Rafael Salazar	downey, CA	we NEED more choices... not less!
215.	Justin Michalicek	Richmond, VA	Competition between companies to produce a better product at a better price and a customer's ability to chose a different product or provider is what is supposed to make our economy work. This is supposed to keep quality high, prices fair, and drive innovation. Allowing this merger reduces competition and consumer choice in a market that already has too little.
216.	Sorangel Rivera	Bristol, CT	It's time to think about the consumers.
217.	Christopher Castano	Universal City, TX	I have been with T-Mobile for many years as a loyal customer. I stayed with them because of who they were and what they stood for. Allowing AT&T to buy T-Mobile will hurt the mobile industry way more than it will help it. It will create a monopoly of GSM providers in the US, and will also hurt competition, which will in turn drive up prices for everyone. Consumers need to have a choice when it comes to services they can choose from, and this buyout will severely hinder that choice. Allowing this buyout will also likely cause unemployment to go up as it is almost a certainty that AT&T will cut jobs of those who are currently employed by T-Mobile in an effort to regain some of the costs of this buyout. Please do not let this buyout happen!
218.	Chris Stefancik	Bunnell, FL	Remember the Sherman Anti-trust act!
219.	jason barton	thomasville, GA	
220.	leah malmos	albuquerque, NM	This acquisition is going down the road of "too big to fail". Less competition isn't going to make prices cheaper or spur on innovation.
221.	Joanna Adler	Oakland, CA	Please don't let AT&T become a monopoly on GSM service! I want a CHOICE in the market place.
222.	Luis Rojas	Glen Ellyn, IL	This will be a monopoly if the FCC approves the deal. 2The only 2 national GSM carriers merging leaves us with no other options!
223.	Patrick Sweeny	Pittsburgh, PA	
224.	John Borders	Bellflower, CA	Dont let AT&T Monopolize the industry... TMobile service and pricing cant be beat....

227.	Lemaeke Naze	Sunny side, NY	You're selling out a lot of loyal customers. I don't care about LTE. I just want reliable and affordable 3G+ service. This is just a horrible day for America. German based company or no. It is the best carrier just as it is.
228.	Michael Koehler	hometown, CO	
229.	Thomas Gawriluk	Lexington, KY	AT&T was broken up 26 years ago for breaking anti-trust laws. I hope this will not need to happen again.
230.	Clifford Miemban	Austin, TX	FOR ALL OF WHO ARE WITH TMOBILE (ALSO THOSE WHO ARE NOT) PLEASE HELP US TO STOP THE MERGER OF AT&T & TMOBILE... WE HAD AT&T & THEY HAVE THE WORST CUSTOMER SERVICE & SO MUCH HIGHER RATES & PLANS WITH LOTS OF DATA & CALLS PROBLEMS (WERE AT&T CONSUMER FOR 10 YEARS) THEN 5 YEARS WITH TMOBILE NOW & THEY LIKE AN ANGEL WHO HELPED US TO LEFT THE DEMON... THANKING YOU IN ADVANCE IN THIS CRUSADE... SIGN UP ON: http://www.thepetitionsite.com/5/stop-the-att-t-mobile-sale/ GOD BLESS YOU ALL...
231.	Bryan Lee	Hellertown, PA	This merger will result in a large amount of poeple who work for T-Mobile and employees of companies that rely on T-Mobile to loose their jobs.
232.	Angie Green	Placerville, CA	
233.	Sheree Garrison	Enid, OK	
234.	Ivon Castillo	Greeley, CO	I have had horrible service with AT&T. My fiancée currently works for T-Mobile and we get a good employee discount. However, if this merger goes through I will take my four lines and go elsewhere. I refuse to have AT& T service.
235.	Melissa McBurney	Ontario, CA	I thought we were protected from monopolies? If ATT buys out T-Mobile, they will be the ONLY carrier in the US who offers GSM. HOW is this okay? Why am I being forced to one choice where I do not like their plans and do not want to be slammed with the excessive charges that they are notorious for? No, CDMA is not a viable option. I'm forced to limit my phone choices, compatibility, and options. The network is outdated and most of the world operates on GSM. This is especially not fair to any international travelers because they will be forced to use ONE company for their needs. I feel that this is a violation of my rights as a consumer to be forced into such a situation.
236.	Bruno Haineault	West Melbourne, FL	This is a bad idea given at&t's customer support track record.

240.	shye maliackal	miisouri city, TX	Anti-consumer act!
241.	Diane Moore	Anthem, AZ	Please keep t mobile what it is. I have been with them since 1998.
242.	Kai Chou	Katy, TX	If the deal is approved..there is no way I can find another provider that offers the same pay as you go deal as tmobile that is on the GSM network. Please do not allow this deal to go thru
243.	Laura Kavanagh	grove city, OH	T Mobile is a great company, please keep it that way.
244.	catherine collins	houston, TX	i do not agree to an increase in price and decrease in customer service
245.	dena ricket	jacksonville, FL	I hate AT&T!! NOOOOO!!!!
246.	sean hopkins-feuerborn	lakewood, CO	This is bad for everyone.
247.	betty maliackal	missouri city, TX	
248.	David Shafer	Minden, NV	After the merger AT&T will have a monopoly on GSM wireless. FTC, FCC do your job and stand up for the consumer. Stop this!
249.	Tamaki Yuri	Norman, OK	I've been happy with T-mobile for years. Removing competitions always leaves worst companies at the end. Please protect our ability to choose good quality wireless service with reasonable rates.
250.	S Cramer	Wyoming, MI	I refuse to pay a damn to ATT nor agree to any terms of service provided by ATT as a company. I went with Tmobile years ago because they were not ATT.
251.	Jennifer Reer	Baltimore, MD	T-Mobile needs to stay has they are. We don't need at&t
252.	Holly Marback	Willis, TX	AT&T's CEO said that they intend to push T-Mobile customers to buying smart phones so they can make more money. I don't want a smart phone. I don't want the internet on my phone. I want what I now have at T-Mobile. Even with a corporate discount, AT&T wants me to pay \$85 (pre-tax) for the same service T-Mobile gives me for \$59 (pre-tax). The \$85 includes my corporate discount. I did not like AT&T when I had a landline with them, and still don't like them. My contract expires next year, and I'm already checking out my options. T-Mobile, you're doing a bad thing.
253.	Joshua Nay	Cedar City, UT	T-Mobile is a better company without AT&T. It's monopoly to have AT&T take over the only other national GSM carrier in the U.S. I implore you, chairmen, use your heads. Think about the consumers, not your pockets.

254.	Roger Mota	clinton, UT	Me and my family have been a customer of tmobile for over 10 years.. i actually work for att.. i would not recommend them to anyone. tmobile is such a better company and in america we need to have competition.. 2 was an industry first with android phones and have always took risk while the big companies sit back and see if succes if brought or not.. the prices of att alone will defer me and my family.. we are happy with our service. this merger would force us and millions of customer to change for the worst. not the better..hopefully this gets read and actually means something to someone who can do something about this..thank you.
255.	christina s	medford, MA	I love Tmobile please don't let at&t buy it we will have higher prices and not good service tmobile offered everything
256.	Chris Geiger	holland, MI	Competition is a good thing, however this would create an unhealthy level of competition, set the stage for price gouging and hinder the free market concept of our economy.
257.	nancy vargas	Montebello, CA	at&t is worst customer srvice with high prices!
258.	natali rozin	columbia, SC	
259.	Andrew Martonik	Belilngham, WA	
260.	Stefan Prskalo	Glen Allen, VA	I have been a loyal customer with t-mobile for over 8 years. T-Mobile offers great prices, for my family plan with 5 lines. I don't want higher prices and less than satisfactory service. Say no to AT&T T-Mobile Merger.
261.	Stacie Young	Albuquerque, NM	This would be a step closer to At&t monopolizing the cellphone market. It would raise prices and lower plan choices. No no no!
262.	Joseph Montelongo	El Dorado Hills, CA	ATT sucks and is just gonna raise our prices and give us less service!
263.	C Rockliff-Stein	clifton, NJ	I've been so happy with T-Mobile, I can't believe I'm going to have to deal with AT&T now. If this really happens I'm switching to another carrier altogether. I hate when companies with lousy customer service take over companies with great customer service. Everyone loses when that happens.
264.	McDaniels Fon	Norcross, GA	please FCC, Do not approve this, with no competitions and with Monopoly from AT&T, we the consumers will suffer and have no where to turn to.

354.	Ron Liu	Honolulu, HI	
355.	tom ventresca	west chicago, IL	Tmobile was my only choice! AT&T is too expensive for the young generation just trying to have a cool phone and save money for school.
356.	Daniel Schaumann	Yuma, AZ	
357.	Charles Gwin	Eugene, OR	Approving of the merger would be anti-competitve and allow AT&T to monopolize the GSM technology in the United States. Please don't allow this
358.	John Paul Readey	Tolleson, AZ	
359.	Michael Giron	Palmdale, CA	I am T-Mo customer since year 2000, sticking together ;) even though I am running only on Edge past five years due to the location. Still, I was never let down by T-mo, and simply feel odd about this whole acquisition. I am GSM user for life (lot of travelling) soon left with no other choice then AT&T...my choice becomes no choice. Tnx, T-mo! Tnx for all that stick together BS!
360.	Linda Feuerborn	Grand Junction, CO	
361.	Ray Snoke	San Diego, CA	I have been with T-Mobile since fall of 2004, because AT&T screwed me over. I have no desire to ever let them do that again, and I have never been treated better than I have with T-Mobile. I went with them on the recommendation of my German exchange son, and I very grateful to him for his recommendation. There has to be a better way to handle this situation than to let a crap company buy the best wireless company out there.
362.	Michael Mason	Las Vegas, NV	
			AT&T's interest in the venture is about their profits and market position, apparently (and successfully) trying to recreate the company that was broken up in the 80's. T-Mobile been an innovative consumer friendly company. The lack of a fourth player in the wireless market will impact the consumer in a negative way as AT&T no longer has a competitor in the GSM carrier market.

363.	Robert McGuire	Hermitage, PA	I feel AT&T buying T-Mobile would be a bad deal for consumers as it gives AT&T and Verizon 80% of the market share. Sprint would only have about a 20% market share, so where would it leave us consumers?
364.	Pedro Gutierrez	Aibonito, Puerto Rico	The acquisition would also make AT&T a monopoly for GSM/EDGE/HSPA+ phones in the U.S. Please don't allow this
365.	Robert Floyd	Raleigh, NC	I've been a T-Mobile customer since 2002, and even worked as a sales rep for T-Mobile. This is by far the worst news I've gotten all year, and I will be switching if this merger/buyout does happen. AT&T, in my opinion, truly, truly...sucks.

371.	Luis Torres	phoenix, AZ	
372.	Jeannine Comeau	Las Vegas, NV	
			TMobile was there for me when no other cell phone company was. I had bad credit and they allowed me to get a phone with a deposit.No other cell phone company would. I ended up with 5 lines and have been a loyal customer since 2002. . PLEASE don't allow this buyout. A monopoly is not good for the people. If we wanted to be AT&T customers, we'd have been AT&T customer.
373.	Deryk Su	Sacramento, CA	This merger is HORRIBLE for competition despite AT&Ts deceptive spin on the purchase of TMobile. This will give AT&T a monopoly on the world mobile standard (GSM) here in the US!
374.	Kevin Buck	Norman, OK	
375.	oscar davila	pomona, CA	Will have to go to verizon.
376.	David Washington	Detroit, MI	I really don't like AT&T. They may be a big carrier with huge income/profit, but they are definitely one of the worst. From the pricing & restrictions, to the drop calls, & horrible customer services. This BUY OUT IS A PURE NIGHTMARE. I am & was with T-Mobile because I love T-Mobile & T-Mobile only. Though a small carrier, T-Mobile definitely was 1 of the best. Great phone choices (thou not the best), innovative, affordable plans, BRILLIANT CUSTOMER SERVICE. We want to keep T-MOBILE, I REFUSE TO SUBMIT TO AT&T. DO NOT GIVE UP ON US T-MOBILE, WE LOVE YOU, ONLY YOU!

377.	Grant B	Norman, OK	The proposed merger will deliver a serious blow to competition in the wireless industry. American consumers will lose the most innovative and often cheapest option in the wireless market to the least innovative and frequently most expensive company.
378.	Colter Cline	Beaverton, OR	
379.	Derik Newell	Bentonville, AR	
380.	Aleem Qureshi	Richardson, TX	AT&T merger will result in higher cost and lower quality customer service compared to T-mobile. This merger spells nothing but future headaches for loyal T-Mobile customers including but not limited to unreasonable limitations imposed on devices by AT&T incredibly low data caps, as well as other poor customer service practices.
381.	Anna Rojas	Chicago, IL	T Mobile is reasonable and the customer service is A1! You have allowed the big companies to take away alot from the hard working americans, can we atleast keep our TMobile?
382.	Brandee Gray	Wilmington, NC	
383.	Ronaldo Bordador	Rosemead, CA	I moved away from AT&T only to be snagged again by AT&T. This is a bad choice, approving AT&T purchase of T-Mobile guarantee's AT&T's GSM monopoly. The big companies stick it again to the consumer.
384.	Jamie baker	carmichael, CA	I left att for their horrible customerservice and lack of choice phones other than iphone.
385.	Ashante Wells Baines	Macomb, IL	AT&T is turning into a cell phone monopoly I want choice not segregation.
386.	Lery Alvarez-Lugo	New Haven, CT	Google and walmart should buy T-mobile to make front to Verizon's and AT&T's higher prices. We want more competition not less.

388.	Michael Krukowski	Twentynine Palms, CA

395.	Kerry Lawler	tustin, CA	Been a happy customer with t-mobile for well over 7 years now. I went with T-mobile, because at the time I was with Verizon and my calls kept dropping constantly. Well it turns out at the time that they had very limited coverage in my area, so we went with T-mobile and had absolutely no problems. Now you want to destroy your reputation, and risk losing a huge part of your customers because AT&T threw you a fee billion? A merger with Spring would have been a wise move. If this deal does go through, you can choke on your early termination fee, because I will reluctantly have to go back to Verizon, because you forced my hand. Basically I'm being forced to chose between the lesser of two evils.
396.	Donna Lawler	tustin, CA	
397.	Jeffrey Weil	Eugene, OR	I have been with T Mo for 9 years and have been very happy. I hear nothing but horror stories about AT&T. I would rather pay Tmobile more for the service I get now than pay AT&T anything! I would rather not own a cell phone than have to be tethered to AT&T.
398.	Sarah-Ann Johnson-Wakama	Chicago, IL	This will create a monopoly! This is similar, if not the same, thing to the MaBell conglomerate of the 80s. Please don't let this happen again!
399.	Paul Michos	Glen Mills, PA	If this goes through and you want a phone to use for global roaming you have no choice but AT&T
400.	Joshua Resneck	Oakland, CA	I chose to do business with T-mobile over AT&T and if this deal goes through I will cancel my service when the merger is complete.
401.	Jen Thompson	Cumberland, MD	if the merger gets approved, it only means one thing: FCC do not really care about consumers because it is very clear that current T-Mobile subscribers would NOT benefit any from this merger. It would in fact cause us, the subscribers to pay more to get less. It is very wrong.
402.	Brett Burgoyne	fresno, CA	I personally researched all of the carriers before signing up with T-mobile. None of the other carriers appeal to me, especially AT&T. I signed a contract with T-Mobile, and AT&T WILL end up ruining the great service T-Mobile offers.
403.	Aneisha Toler	Seattle, WA	In 2004 I had AT&T they did me wrong! I left and went to T-Mobile they offered deals I couldn't turn down I've been with T-Mobile since 2006 until now ...August my contract ends I will not renew if they go through with this!
404.	Ryan Poling	Anderson, SC	This will leave only 3 options for customers. Less competition will lead to higher prices. If we wanted to be with AT&T we would have contracts with them. This is AT&T's desperate attempted to compete with Verizon. They lose exclusive rights to Iphone and have to do something about it. PLEASE DONT LET THIS HAPPEN.

While I admit T-Mobile is no where near as good as VoiceStream was, they are the best in the market at this time, and have been for years. They continually win customer services awards, hell when Katrina hit they gave everyone free phone service for 3 MONTHS no questions asked. AT&T has horrid customer service and poor service quality. I am an avid long-term Apple user and have stayed loyal to Magenta despite having to go without an iPhone, now I still won't have that choice (initially) while simultaneously being screwed by abysmal AT&T service and call quality, a truly raw deal:(

I also think that only having FOUR major competitor in the cell phone market is bad enough but now you are thinking about letting that be cut down to three. STOP THE AT&T and T-Mobile merger!!!

536.	tina caneal	bayville, NJ	i have been a t-mobile customer for well over 4 years and am completely disgusted that tmopbile would sell us out to such a horrible company like at&t
537.	Barbara Carr	Austin, TX	I escaped AT&T once I don't want to go back to them. I don't care if they are the "largest network." T-Mobile has been a really good company that doesn't deserve to be sucked into the black hole known as the AT&T Deathstar.
538.	Steve Severn	tulsa, OK	
539.	Jeremy McGee	Pearland, TX	
540.	Lrry Parish	opperas Cove, TX	ATT told me when I had an account there and had a dispute to go some where else. I did. I will drop T Mobile like a hot potato if this merger happens .
541.	Denise Ellsworth	Bristol, PA	Had Cingular (and was happy) when AT&T took over and ruined everything. Switched to T-Mobile (who have been AWESOME) and vowed to NEVER go back to AT&T...I will give up cell phones completely before I have AT&T again..and I am ALWAYS on my phone. That is how much I hate them!!!

542.	Minas Hambardzumyan	Plano, TX	I will leave the service the first day this merger happens.
543.	Daniel Dugan	kokomo, IN	I know Att will up the plans fees and i will have to pay more
544.	Tiffany Alvarez	Miami Beach, FL	
545.	Ernest Hood	Tomball, TX	I lived through the merger of Sirius & XM. Guess what? Rates went up. Now I have less choice and higher bills if I still want satellite radio. Don't let this merger happen--especially consolidating GSM carriers. I will have no other choice for GSM phones. Not good...
546.	Elizabeth Goodrich	Hull, MA	I have been with T-Mobile since it was VoiceStream. I have always loved their customer service, plans and phones. I purposely left AT&T and came to VS/TMO because of their reputation. If this merger is allowed to go through, this is one customer who will be leaving. I've already started doing my research, just in case.
547.	kohl rachlin	pompano beach, FL	
548.	Jennifer Benner	Harrisburg, PA	I have been a T-Mobile customer for the last 8 years. I switched from AT&T becuase of the poor service. I am very unhappy about this merger and upset becuase my rates will sky rocket once my contract is up. If this deal goes through I will be forced to switch to Sprint once my contract is up.

554.	Mariano Bustos	Queens Village, NY	Couple days ago I threw away a proposal of ATT to switch carrier cause I know how they treat their customers and their planes are way too expensive. Now I have found that will be a customer of ATT anyways if we don't stop this, guess I will have no choice but switch to Sprint or Verizon, I don't like the idea but i don't see any other solution.
555.	Jose Moreno	bossier city, LA	i left AT&T to go tmobile...best customer service ever.
556.	Brian Perez	las vegas, NV	My biggest fear with this merger is less competition between the carriers
557.	Jaime Socher	Delano, MN	I have been a loyal T-Mobile customer for over 10 years. If this merger takes place, I will move to Verizon or Sprint. Instantly.
558.	Tim Ziolkowski	Chicago, IL	I have been a loyal Tmobile subscriber for 9 years now. I have enjoyed great service and customer support. This is a blatant monopoly of the GSM networks. Please realize how this will de-stabalize the cell phone market and raise prices for everyone.

559.	Min Tu	Roswell, GA	I have been with T-Mobile since it was VoiceStream and will never be the customer of AT&T because they are simply the worst company in the world.
560.	Dan Sheppard	Reynoldsburg, OH	I have been with T-Mobile for 8 years. I switched from ATT to T-Mo because I was an ATT Wireless customer who had been treated like crap after Cingular purchased them. I like GSM technology but I will not go back to AT&T. I feel if this buy out is allowed to happen there will be no other choice for a GSM phone.
561.	John Conner	Fresno, CA	
562.	Zachery Armstrong	Smithfield, VA	
563.	Michael Liebmann	Atlanta, GA	If T-Mobile is bought by AT&T, I will either switch service to someone with better customer service or I will keep my phone as a 911-only phone. AT&T will NOT get my wireless service!
564.	Greg Bartley	Newark, CA	I had nothing but negative experience when I was with AT&T. Heck... I just recently received my referral bonus for signing my three friends and two family members up for T-Mobile! Now I have to tell them that they will have to go back to AT&T? Wow are they going to be pissed. Plus it took AT&T over a year to release their first Android phone, the Backflip. Which sucks! What was that all about? Just an example of how stupid AT&T is when it comes down to knowing what their customers want. What are they thinking? That we want crappy phones on a crappy network paying at least 10% more and when we call customer service to ask about it what do we get? Crappy service! Screw that! I'm not going to AT&T, I'm going to Verizon.
565.	Colli Bounds	Cordova, TN	
566.	Erica Picardi	Acworth, GA	
567.	Bryan Dela Cruz	Chatsworth, CA	
568.	Eli Cianciolo	Cincinnati, OH	The merger of T-Mobile and ATT would seriously result in LESS COMPETITION and LESS CHOICE in the marketplace. The merger would be BAD FOR CONSUMERS, leading to less choice, less innovation, less competition, and higher prices. STOP THE MERGER!
569.	daniel rivera	New York, NY	I think tmobile has been the most creative with there competition 3 day weekends, my favs, and the non contract even more plus plans were awesome. We need more competition not less!!!!!!!!!!!!
570.	Darren Price	Sumter, SC	T-Mobile and Sprint are the only two wireless providers that care about their customers. Sure, they may not have the signal and iPhone cache that VZW and ATT have, but (continues on next page)

570.	Darren Price	sumter, SC	<i>(continued from previous page)</i> they give their customers a lot of price points and phones to choose from. If ATT gets this deal, it will likely mean my smartphone plan price will more than double, without getting better coverage, reception or customer service. This merger is a true disservice to customers who want a choice.
571.	Louis Schurick	kissimmee, FL	
572.	david Nguyen	Brooklyn, NY	
573.	Jimmy Screws	Wylie, TX	Allowing this sale to go through will only set AT&T one step closer to monopolizing the mobile phone industry. This is not a good merger for existing T-Mobile customers or the mobile phone industry for that matter.
574.	KRISTI CHURCH	Wichita, KS	
575.	Anthony Cardell	Fayetteville, NC	It's plain & simple. If AT&T eats up T-Mobile this will directly cut down competition. Last time I checked, there are NO other major GSM carriers in the US aside from AT&T & T-Mobile, so how does this promote choice? Additionally if the government is consigned for the consumer, they will compare overall pricing structures between the two companies and see that T-Mobile provides more value to the customer and also has less restrictions on service (ie unlimited data). Please do not allow this proposed buyout to take place. Let T-Mobile remain a separate company so people have more choice in the wireless world. Let the people that value cost-effectiveness over a cellular monopoly monster.
576.	Ronald Solomon	Charlottesville, VA	I have stayed with T-Mobile for years because they have great employees based in the US. We all know that if ATT buys T-Mobile their jobs will be eliminated. Please don't let the wireless service with the worse customer service in the country destroy the one with the best service.
577.	Carlos Andino	Rock Hill, SC	Please don't allow this to happen.

585.	christina estrada	hillirad, OH	T-mobile offers great rates, and for customers who may not have the best credit or just getting started in life and need month to month. Based on what i see and read about att they offer none of that bad choice T mobile going to lose a lot of loyal customers yes you may gain but you lose a lot more then you may gain.
586.	andrew walenta	Arlington heights, IL	This is terrible news. I just switched from at&t for all the obvious reasons. At&t's service is not good. I travel overseas alot, and need a phone and company that can easily accommodate my needs. If this merger happens, this will severely hinder consumers choices! Do not let this happen!
587.	Robert Mitilieri	Carol Stream, IL	My parents had at&t on their cellphones and had lots of trouble with their service and reception. Were I have had none with T-Mobile. Why would I want to downgrade my service?
588.	Wells Edwards	Selma, NC	
589.	Jamie Heller	Vadnais Heights, MN	I am NOT happy with this. I have been very loyal to Tmobile, and enjoyed my service from them. I don't think it's right that they are FORCING this change upon it's loyal customers when most of those people RAN from AT&T!
590.	Edgar Sanchez	Iowa City, IA	Why on earth would we want to go to a company with such horrible phone service and customer service. I live in Iowa where Tmobile is not even native. I have stuck with Tmobile out of loyalty because of price and customer service. There is no way I would stay with ATT&T.
591.	E S	worcester, MA	I don't want to give AT&T even a penny.The worst company in USA.
592.	Adrian Tirona	Camarillo, CA	This is a step backwards to monopolization. I left AT&T for reasons. I went to Tmobile. I will leave AT&T again, period. hATe&T
593.	R Jorgensen	Deland, FL	
594.	Aaron Vaughan	None, MI	This merger needs to be stopped. The results of it will be nothing short of disastrous. AT&T cares nothing about their customers (as evidenced by their horrible customer service and poor call quality with no real plans to fix it). T-Mobile is a great company and needs to be left to it's own so it can grow and continue to provide excellent service and support.
595.	Sharon Roberts	Bountiful, UT	I have been a T-Mobile customer for years. I do look at other options when my contract is up but have stayed with this company because I like the plan I have. DO NOT merge with AT&T.

598.	Kyle Turpin	Springfield, MO	I'm not okay with being sold out to a vendor whose service I already didn't pick because of price and service. This market isn't open or competitive enough to support this move and it will only hurt consumers.
599.	Cynthia Klenk	Issaquah, WA	Please be advised that the acquisition of T-Mobile by American Telephone and Telegraph (AT&T) is not in the interests of the United States, T-Mobile's customer base, not the public in general. This acquisition smacks of anti-trust and will further erode innovation in the U.S. by creation of a monopoly, based upon frequency spectrum and type of modulation. ATT will NOT be my cell provider. I will go without before that occurs.
600.	Robert Woodard	San Diego, CA	Bad idea. Tmobile = Good, AT&T = very bad. T-mobile is the best company if anything they should buy out at&t this is a awful turn of events PLEASE DONT DO IT TMOBILE

602.	Jean Gratereaux	Rex, GA	I been with Tmobile for 5 years and I'm disgusted by the new of the buyout. I seriously hate AT&T and there service. Come on Tmobile how the hell are you gonna let yourself stoop to that level? Say it ain't so, say it ain't so. I DON'T WANT AT&T!!!! THEY WILL NEVER NEVER HAVE MY MONEY
603.	Joseph Castillo	Las Cruces, NM	No way will i give a penny of my money to ATT I love my current T-mo deal and its service, if ATT buy's it then I'll go with MetroPCS. It is clear that if this happens prices will jump off the roof so why should we accept that ??
604.	J P	chicago, IL	
605.	Armand Stroni	Garfield, NJ	
606.	Robert Walton	Evanston, IL	Please scrutinize AT&T's acquisition of T-Mobile very carefully! This merger limits consumer choice and industry innovation in an already non-competitive industry.

608.	Ben C	Las Vegas, NV	I left ATT for a bunch of reasons. I will leave them again. Period.
609.	ashley Lemoine	luling, LA	I am just now finally getting around to having 3g in my area with T-mobile. I have it literally everywhere. T-Mobile is cheap and reliable in my honest opinion and is far more worth it than ATT. If ATT isn't going to give me the same rates with their crappy half-a**ed phones AND fail to give me 3g in my area (Because ATT has 3g like...no where here) then I have no reason to be a part of the GSM craze and might as well get me a droid 2. But I don't want to, as I love my Nexus one more than life itself.

615.	Angelina Monou	Humble, TX	It's a reason why T-Mobile the best company to be with. They are the most unique company with the best phones and plans. I feel that AT&T can't come up with their own phones and deals so they have to buy other companies out. Just to name one Pentouch phones that slide both ways was with HELIO, and they called out AT&T and now the company is no more. All I'm saying AT&T cant take the competition with other companies, so they have to buy them out. Come on T-Mobile you the best company I ever had. But if you merger I sorry I'll will have to leave. Please don't merger.

622.	Cristina Luna	West Covina, CA	
623.	Deborah Brandes	Hockessin, DE	I had AT&T 6+ years ago - Cingular and AT&T merged and made my cell life heck for 4 LONG months. They couldn't even get my phone number over to the new entity. PUHLEASE.... I RAN... RAN RAN to the best provider at the time T-mobile. They have been the best in service hands down. They have provided ongoing quality customer care and meet my needs consistently. My concern is that good people and a good business will die merely because their parent company sold out to the highest bidder. Save T-Mo from this insanity! Can we buy them out, Can employees buy them out.. something...

632.	Laura G	Nashville, TN	Please stop this horrible monopoly that is AT&T! I believe all of our fears will come true when we believe that our service will be degraded and our rates increased substantially due to the merge. When is it enough? We have tried our best to stay away from AT&T in all of its over-priced rates, bad service and terrible customer service ways for many years -- please keep it that way!
633.	Gail Ellerton	West Hempstead, NY	
634.	Cindy Trout	Burkburnett, TX	
635.	Roddy Neff	Fort Worth, TX	This merger would create a GSM monopoly and adversely impact millions of Americans who do not wish to pay the higher rates of AT&T and be forced to comply with data usage caps.
636.	Saul Hernandez	Dallas, TX	
637.	Joseph Perea	Austin, TX	Please do not allow this to go through. America is about having choices. Having the choice to choose which carrier best suits my needs. T-Mobile, best suits my needs... Not AT&T.
638.	James Little	Grand Rapids, MI	Please please find another solution. I believe people who are T Mobile customers are with T Mobile simply because they did not want to join ATT. I know I will definitely be leaving if this turns out to be approved and finalized

663.	Dominic Wilson	Detroit, MI	
664.	Luis Rosado	chicago, IL	AT&T recently announced a deal to purchase T-Mobile for \$39 billion. The acquisition will eliminate a large competitor in the wireless provider market, limiting consumer's choice in provider and service plans. Worst of all, AT&T, the worst rated of the wireless providers, will take over and eliminate T-Mobile, the highest rated in customer satisfaction and service. We as consumers want to be able to choose a provider with high satisfaction ratings, low rates, and high quality wireless service. This acquisition will allow AT&T to move towards monopolizing the wireless service industry at the expense of consumers. The only way to prevent this is for the FCC to not approve this deal.
665.	Robert Estes	Oklahoma City, OK	I chose T-Mobile for a reason. Because they have great customer service! If I wanted AT&T I would have it already.
666.	Amy Horst	Minneapolis, MN	
667.	J Galloway	Missouri City, TX	
668.	Michael Yaeger	Woodhaven, MI	For this merger to go threw would be bad for the American consumer. The merger will thrust AT&T to the biggest cell phone company and deplete one of the more economical choices for cell service in the US. They only want T-Mobile to rape and pillage there 4G towers so they don't have to build there own. I have had AT&T in the past and they were the rudest and worst company to deal with. They think there god and with this merger they will be one step closer to having a monopoly on the market.

670.	Elizabeth Kinetz	Sacramento, CA

687.	nino almeraz	laveen, AZ	T mobile is a great alternative to the high priced big two wireless providers. Allowing ATT&t to buy t mobile is moving this industry closer to monopoly size. So in a few years you will be in hearings deciding how to break up what you have allowed to be made if you allow this to happen. Competition and more spectrum is needed for little guys like t mobile to be successful against version and att&t. Please vote against this merger!
688.	Philip Vallido	Garfield, NJ	Please do not let this happen. My very first cell phone was from AT&T and the service was terrible and the costumer service was horrible as well. Having made the switch to T-Mobile I am very satisfied of their pricing and great service. 707.	Michael Leleua	Denver, CO	<i>(continued from previous page)</i> family plans amongst myself and my wife, my parents, and my sisters. T-mobile is the exact opposite of AT&T and that alone has been the reason I chose them over all others for our plans.
708.	Jason Sanchez	fairless hills, PA	Ugh - had at&t through a company and it was god awful.
709.	Paul Harrison	Stuart, FL	
710.	William Hill	Columbia, SC	I'd have to disagree with the merger from 2 standpoints. First is customer service which i understand is horrible with ATT&T but have always had great service with T-Mobile. Secondly, is the price point. I don't want or desire an iphone and the associated rise in plans and coverages will destroy many middle and lower level income families, like mine. I don't want a higher phone bill.
711.	Jose P	Broward, FL	We have to keep T-Mobile. There is no alternative to companies that use GSM and many customers will lose full functionality of the phone such as 4G HSPA+
712.	Karen Goodson	Alvarado, TX	My husband and I have been with T-mobile since it was started as Voice Stream. They are great and I don't understand why they are wanting to sell out to a lesser company who is just going to run people off. I am very sad, especially since I just got a Dell Streak. Please don't sell.
713.	Dennis Tran	Stanton, CA	ATT has moved away from unlimited data plans and also charges you for limited tethering. The internet is no longer free. We are being robbed by these so called "bridges" to the internet. If this merger goes through, we will have one less alternative choice. DEFINITELY a disadvantage to the American consumer.
714.	Jennifer walker	harlingem, TX	
715.	Cameron Rye	Santa Monica, CA	
716.	Alberto Quintero	orlando, FL	
717.	Anthony Kause	Brownstown, MI	
718.	Anne Martinot	New Smyrna Beach, FL	Please do not let this happen. We tried for years to avoid to deal with AT&T. It is about their rates of course, but it is more about their attitude towards customers. Please stop the deal. We want to keep T-Mobile. We love it.
719.	Karin Tilley	Filer, ID	My 3 lines will be moving to another carrier if this goes through, and that's frustrating. I like being on a GSM carrier as I travel and it's the most convenient. However, I refuse to do business with a company that has terrible customer service and high prices for low features.
720.	Gordon Longton	Apple Valley, MN	I left AT&T almost 10 years ago. Hated their poor service and lack of support. Have been very happy with T-Mobile. AT&T will ruin a great provider. Further, relegating the US to 3 major carriers would be a complete disservice to the cosumers.

721.	Erick Espiritu	Las Vegas, NV	I've left AT&T seven(7) years ago to be with Tmobile and never had a problem since then. If this happens, 1,000s of jobs are in stake and great customer service going to waste. Please stop the monopoly!!!
722.	Lakendra Brewer	Greenville, MS	I do not support this merger. I have grown to love the low, affordable prices of Tmobile. This merger only helps the CEOs, not the customers. If this merger goes through, I will be switching companies.
723.	Jodi Arminio	Atlanta, GA	More money for less service? That's what this takeover will bring, and a depletion of competition. PLEASE don't let this happen!
724.	Brandie Mears	San Antonio, TX	I would honestly rather not have a mobile phone service than deal with AT&T.
725.	Boris Suarez	miami, FL	
726.	Alek Tritt	Palm Bay, FL	
727.	Kenneth Anderson	Portland, OR	
728.	Amanda Henderson	rome, GA	
729.	Emily Cochran	Baltimore, MD	I used to be an AT&T employee i know how management wants them to treat customers and i refuse to be treated like that!!! That was why i switched my service 6 yrs ago to T mobile. I absolutely loathe AT&T and they way they do business.
730.	Irena Ozerskaya	brooklyn, NY	I have been with Tmobile for 12 years for ONE specific reason. Customer Service. They are in the USA, speak english and have always been able to fix my problem. I know many people that fell for the Iphone gig and now regret it because of horrible customer service. I don't know of any other provider that does offer good service like Tmobile.
731.	Charissa Robertson	Nampa, ID	AT&T brings nothing to the table other than \$ for t-mobile. T-mobile customers have avoided AT&T for a reason. They have horrible customer service.
732.	Aida Santiago	Ponce, Puerto Rico	I left At&t because of the low quality and terrible customer support.
733.	Craig Anderson	Knoxville, TN	
734.	Thorpe Griner	Denton, TX	This crappy merger will create, to the best of my knowledge, a TOTAL monopoly on cell service suing the GSM platform used worldwide. This has allowed us to use our T-Mobile phones in other countries on the local network by simply obtaining and swapping the SIM card WITHOUT incurring exorbitant international roaming charges. So, we have NO choice but to stay with the merged company and be ripped-off with higher rates and LOUSY service!
735.	Stephen Lykins	Doraville, GA

736.	Prasad Annadata	Evergreen, CO	It is hard to understand how this deal will "benefit" the customers. I don't believe that statement. AT&T's example of phasing out unlimited plans recently for iPhone's shows how they are not afraid to use any monopoly they have. What makes them different this time.
737.	Sharon Simmons	Inglewood, CA	I tried AT&T to get a iPhone only to come running back to T-Mobile after that horrible experience, T-Mobile has the most pleasant customer service, great features, phone plans and excellent prices. I've been a T-Mobile customer since they first came to the US and never had a problem. This will not be a nice marriage. Please, Please don't do it.
738.	angelne dalupan	eatontown, NJ	
739.	Masada Disenhouse	La Mesa, CA	These mergers are bad news for customers. Worse service. Higher rates. AT&T will be the only GSM provider if this goes through... isn't that called a MONOPOLY? Do your job FCC and ensure there is not a monopoly.
740.	jeniffer jimenez	phoenix, AZ	
741.	Mike Juarez	Lasara, TX	What a stupid deal. Wouldn't have minded if T-Mobile bought out AT&T. T-Mobile's CS is awesome and the reason I left AT&T cause there's sux!
742.	Tiffany Krieger	Kansas City, MO	I have been a Tmobile customer since 2002. If this merger is approved I will be moving my service to Verizon. I tried using AT&T in 2006 and the coverage and customer service were the worst I have ever experienced. AT&T "plans" are structured in a way to make consumers pay high prices and still result in AT&T being able to bill "overages". I promptly paid the AT&T termination fee just so I could go back to TMobile. I am disappointed that TMobile had made this decision.
743.	Gurpreet Singh	Bellevue, WA	
744.	Matt Batta	Hamilton, OH	I will absolutely leave AT&T when/if this goes through. Can't stand their horrible service. both technical and customer...
745.	Brian Watzig	Slinger, WI	don't let AT&T bully you around T-Mobile, your better then that, stay good, stay strong, AT&T is crap.. there not even worth buying out, why doesnt T-Mobile just go buy out Sprint and a few of there smaller providers instead of selling out to a worse one?
746.	Michael Williams	Owings Mills, MD	No one wants hiked up rates and want to deal with att contract agreement. Leave us alone att! We don't like you and were happy with our company that cares about us. Tmobile, don't be stupid.
747.	glenna theilan	tolleson, AZ	I DO NOT WANT TO BE AN AT&T CUSTOMER!!! LOYAL TO TMOBLILE FOR 6 YRS!
748.	Luke Lambert	Orlando, FL	
749.	Joanne Hsueh	Sacramento, CA	Please don't let this happen!!!

750.	Trevor Traub	Prospect Heights, IL	AT&T's pricing is far to expensive for what is given out in service in return. That is why I am with T-Mobile and not them but I will not have this very important choice to make if this merger is completed.
751.	Raul Ludert	Alexandria, VA	T-Mobile is great because of their superior customer service, lower prices compared to the competition, and great phone service. I fear with AT&T in control, everything that makes T-Mobile great will disappear.
752.	David Hsiung	sacramento, CA	
753.	Abraham Sunny	Mount Prospect, IL	I would like to keep competition in the marketplace for cellular phones.
754.	Tyrone Thomas	san antonio, TX	i dont approve of the switch. tmo's cust service is fantastic. i feel that it will be dumbed down and prices will rise. ill be switching to a new carrier after this
755.	Daniel Newman	Newark, DE	Stop the GSM monopoly!
756.	Bryan Blundell	Dallas, GA	I fail to see how creating a wirless duopoly in this country will in any way generate greater compition in marketplace. We will be left further behind the rest of the world.
757.	patrick scot	miami, FL	
758.	Joy Shah	Hoffman Estates, IL	There are a multitude of reasons I chose to stay with T-Mobile for the past 6 years...especially OVER AT&T. Why should I switch now?
759.	mike lee	los angeles, CA	Many American Jobs will be lost, AT&T will become a monopoly again, customers will get the shaft from AT&T's Unionized customer service team, not to mention the highest cost for consumers on what would be the ONLY GSM network in the U.S.
760.	Helen Whaley	Atlanta, GA	AT&T has terrible prices, has outsourced customer service jobs to arrogant barely-english speaking people (REFUSED to give me a sim card even though my contract had me paying for eight more months of service - took TWO HOURS of telephone time to convince them that I didn't have to go to a "Freelancer" get the phone unlocked). Now, they will have a majority control over the the cell phone accounts in the states. Once again the consumers suffer for the big business and Chief Operating Officers at the top. I will not stay with AT&T one more second longer than I have to.
761.	Colby Sampson	houston, TX	Please don't let this go thru !
762.	Andrew thomas	garden city, ID	I have been loyal to t-mobile since 2003 and non of the other wireless providers provide what t-mobile has, specifically there data plan. We dont need anymore mergers in wireless providers.
763.	Dennis Barron	Boulder, CO	I left AT&T for T-Mobile 3 years ago. I wasn't happy with AT&T's pricing then.

764.	Eric Reitz	Benton Harbor, MI	I am a customer of both ATT and tmobile and this merger is a bad deal, tmobile has the lowest rates and they will be killed by ATT no matter what they say. This is not good for keeping rates low. I am getting screwed by extra fees that ATT has on me because of the iPhone. This only benefits stockholders of both companies not customers. If you approve this deal it should be that ATT has to take all tmobile processes and rates and dump all ATT current services as they have let there network decay and no longer know how to run a wireless company.
765.	Richard Dawson	Charleston, SC	AT&T is terrible I never want to be wireless customer of theirs again
766.	Simone Suber-Wilson	Mobile, AL	Please do NOT let this happen! This is utterly ridiculous that we as T-Mobile customers have to do this. If we wanted AT&T service we would have picked them from the start. T-Mobile has the best phones and prices around and that is a big plus for our modest MILITARY family! I feel like we are being forced into something that we did not sign up for....so who do I call to get out of my ETF? If they can't keep up their end of the bargain why should I? You want to know why? Because <3 T-Mobile!!! DON'T LET THIS HAPPEN!!!!
767.	Eleni Maniates	chicago, IL	As a previous customer of AT&T, I am greatly upset by this news. AT&T has terrible customer service and are awful to deal with. When GSM is the rest of the world's technology, it makes NO sense to have only 1 GSM carrier in the US. What happened to consumer's choice? What happened to the idea of monopolies being illegal?
768.	Galen Masdon	Rochester Hills, MI	Cameron Kerry and Christopher Schroeder wrote on the White House Blog that "In this digital age, a thriving and dynamic economy requires Internet policies that promote innovation domestically and globally while ensuring strong and sensible protections of individuals' private information and the ability of governments to meet their obligations to protect public safety". As an engineer and software developer, I currently use my data plan and internet to stay informed, connected, and to work outside of the office. We live in a time where such high tech work is fading from realm of convenience and into the realm of necessity. Please do not allow this merger to go through.
769.	Michael Pitts	Tulsa, OK	
770.	Stan Anderson	Cambridge, MA	You guys at the FCC already know the problems (higher prices and stifled innovation) this merger will likely mean for consumers. Please do not buy in to the incessant lobbying (\$), shallow promises (ie. to expand mobile broadband), and inconsequential concessions. For the good of the American people, please do not allow this buyout to occur.

773.	Latasha Coleman	Downers Grove, IL	
774.	Bernie Perez	San Diego, CA	I moved to T-mobile back in 2004 for a more affordable rate plan. Fast forward to 2011 they now have awesome phones to top it off. The thing that has never changed was the amazing customer service. Prior to that all other carriers were/ are still horrible, plans are way to pricey, and signals that claim to be AMAZING are so so. I don't want AT&T to change any of T-Mobile's plans, rates, phones, branding, NOTHING. Sure there's rumors going around about better service combining towers. But even now AT&T customers still get dropped calls. Wasn't the signal supposed to be amazing when Cingular and AT&T merged?? Keep T-Mobile and AT&T separate!! One less customer the minute the things don't stay the T-Mobile way.
775.	Andy Hawley	Tucker, GA	I've been a customer with T-Mobile for nearly 5 years and appreciate the service they provide. I promise that I will leave this company and go with a competitor if they're taken over by AT&T and their wretched service.
776.	mehdi hassan	woodside, NY	
777.	Jessica Iroanya	Round Rock, TX	I say NO to the take over!! Customer's should have a voice too. I do not stand behind this agreement, T-Mobile is a company that's doing well on it own. So once again I say NO to the takeover.
778.	Elaine Guarino	Marietta, GA	This is unacceptable as it will create a monopoly on cell phone service once again. This is not good. I have been with T-Mobile for years and do not want to be an AT&T customer.
779.	christina herrera	Corpus Christi, TX	
780.	Katie Bashaw	Moses Lake, WA	If Tmobile is bought by At&t it makes att a HUGE monopoly! Personally I hate att and their customer service and plans are awful!
781.	Tammy Wong	Elk Grove, CA	
782.	Yiana Chang	Los Angeles, CA	I switched over from AT&T to T-Mobile for a reason. Please stop this.
783.	Carl Barta	miami, FL	We have seen what happened after the take over of Alltel. This is even worse. We are facing a monopoly or an oligopoly. If I want to keep my GSM Nokia I have to stay with the new monopolist. That's unacceptable.

784.	Chase Casey	Houston, TX	I've been with TMobile for my personal cell service since 2007 and haven't had any issues. The prices are affordable, they have a good selection of Blackberry, Andriod, and feature phones. I use ATT for business and the service drops regularly, the bills are more expensive, and the phone options are less appealing (with exception of more WP7 devices. I can't see any good for the consumer with this buyout. ATT will become too large to compete against, customers will be forced to purchase new phones to be compatible with ATT's 3G frequency, and prices are sure to go up due to less compeition. DON'T LET THIS HAPPEN!
785.	Ray Whisenhunt	garland, TX	The att tmobile merger will ruin use of the android platform.
786.	Cameron Bolourchi	Pittsburg, CA	
787.	Stanislav Stoytchev	Erie, CO	MONOPOLY ON GSM phones! AT&T already has terrible prices and service, it is the reason Tmobile customers stay with T-Mobile.
788.	Milagros Fekkak	East Brunswick, NJ	Please you must stop this, AT&T will cause a Mobile monopoly.
789.	Adonis Tuman	San Jose, CA	
790.	Roberto VARONA	Harrisonburg, VA	I think tmobile can do it all on its own.
791.	wilmis medrano	pharr, TX	Prices will be to high not worth it
792.	charles strawter	louisville, KY	this merger shouldnt be allowed! freedom of choice is out the window for gsm network if this happens.
793.	James Galecio	Adelanto, CA	Wouldn't this be a monopoly on US' GSM network? I can't afford at&t's data plan and I bet most of us T-Mobilers feel the same way. If/when at&t completes its purchase, I'm canceling my data plan and going back to flip-phone.
794.	quan bui	philadelphia, PA	
795.	Andrew Shaffer	Westminster, CO	I like T-Mobile JUST AS T-Mobile. It's not or fault that AT&T has faulty coverage! Please, leave T-Mobile alone!!

799.	Stan heath	Lafayette, AL	
800.	Staci Scroggins	Newark, NJ	We stuck with tmobile all these years because there customer service is the best and they actually care about there customers. We are very happy with tmobile. We had att before and had to stay with them for the 2 years (continues on next page)

801.	Mary Schurick	Kissimmee, FL	<i>(continued from previous page)</i> because of the contract and they were horrible and did not care about there customers at all. att's customers service is horrible. PLEASE DO NOT ALL THIS MERGER TO GO THRU. Thank you, Mary.
802.	John Carr	Glen Burnie, MD	The proposed merger is only a benefit to ATT, while T-mobile and everything it stands for will be destroyed. Note that they already stated T-mobile's customers will have to replace their phones, while forcing us to have their double priced plans. The Satellite Radio monopoly didn't help the consumer and nor will this monopoly.

805.	curtis jansson	phoenix, AZ	been with tmobile for 20 years. enough said....
806.	Raymond Weemes	Madison, AL	Dear TMO, AT&T only offers the iPhone which some of your customers want but it ends there and even then the iPhone is reported not to be an option for TMO customers. TMO has the customer base it does from many people trying to escape AT&T. Some customers may leave ASAP and others may wait until the first price or data change, but this will grow the base of Sprint and Verizon. Owning a few shares of AT&T means nothing if they have no customers. Please reconsider this action. Thank you.
807.	CARMEN PEREZ	miami, FL	This merger is only benefiting AT&T and the 1 board member of DT while employees and customers will be losing EVERYTHING they've been loyal to for over 10 yrs. Also increased prices this is absolutely outrageous and unfair to consumers to have choices! We need a company that offers quality service at affordable prices for the middle class! Benefit the people!!
808.	Cindy Ponder	Flowood, MS	
809.	Paula Loaiza	bridgeport, CT	
810.	Jacqueline Snider	Dallas, TX	I love TMobiles customer service experience and the company itself. I will change my cell phone provider when my contract is up if AT&T is going to be my new provider.
811.	KEN CHOI	cerritos, CA	I had bad experience with AT& T. I had to wait 2 months to my phone service when I moved year 2006,because AT & T did not care to transfer the service to Verizon. I had to file a complaint to FCC. Long story short, their customer service is the worst. I hope FCC to not approve this deal

813.	Steffanie Kehrwald	Seattle, WA	I have been a faithful and loyal customer to TMobile because they have offered me options to the HUGE cellular service conglomerates. They have provided stellar service both customer service and cell coverage service, no roaming charges and low cost data service plans. Further more, I have experienced such horrible service from AT&T that I began boycotting them at all costs almost 12 years ago. I will NEVER be a customer both AT&T and TMobile will lose my business along with hundreds of thousands of others if this merger goes through.
814.	Susan Sparrowhawk	Atlanta, GA	
815.	Jefferson Furtado	Nashville, TN	Consumer will lose a lot with this merger. We have already been informed that all customers using 3G devices will have to buy a new phones, and switch to a more expensive plans.
816.	Melissa Brooke	Mesa, AZ	Due to the economy, money is tight and every little bit of savings helps. The cost of AT&T is not within our budget, nor can we go with another carrier due to our lowered credit score (again....bad economy has led to several lay-offs). My husband uses his MyTouch phone as a tool for work, and not having this tool is detrimental to our financial well-being. For those of us who depend on the wireless network to bring in income, we must have access to affordable wireless service with unlimited plans. AT&T does not offer unlimited plans at reasonable prices. Please reconsider this merger. Loyal TMobile customers will do just about anything to keep TMobile alive and kicking.

832.	Joan Labranche	MIAMI, FL	I have been a loyal customer with Tmobile dating back to their Ominipoint days I have wavered through the struggles of Tmobile finding their niche and they were extremely successful at it! I love the service, phones, customer service is superb and none theless a lot friendlier than most competitors! I love the feel and orginazational brand of Tmobile it still represents how fun and light a cell phone plan can be unlike AT&T whom are very conservative and shall I say just sounds like a bunch of stuffy buisnessman making choices for plans they probably dont use! When rumors were overheard of sprint I was ok with that even thoug I truly belive tmobile has the following to stand alone!! Please Tmobile on behalf of several of my friends, customers, and just those who are against AT&T services please keep your brand, your name, and do not merge with this monopolistic company
833.	Randy Eaton	Portland, OR	I signed a two year contract with T-mobile - not AT&T. How is it that if I am to terminate my contract early, I am charged a fee, however T-mobile can break my contract and make millions? A truly terrible decision and likely illegal as this, while not being a monopoly, will extremely limit competition in the marketplace.
834.	Jamilah Brown	Atlanta, GA	
835.	TANGLER MYERS	Philadelphia, PA	IT'S NOT FAIR AT ALL, PRICES WILL BE HIRER AT&T DOESN'T HAVE THE PLANS T-MOBILE DOES AND THEY WILL NOT IN THE FUTURE. t-mobile still has commercials stating that their service is better than at&t so why merge? THIS IS SO CRAZY AND I'VE BEEN WITH T-MOBILE FOR THE PAST 14-15 YEARS I'VE TALKED FAMILY MEMBERS TO LEAVE AT&T BECAUSE THE PRICES ARE BETTER I HOPE T-MOBILE STAYS THE SAME!!!!
836.	Roselind Gratereaux	Mcdonough, GA	Don't do it please!

840.	Anita C	Boston, MA	In Boston, T-mobile is the champ with the better service and reception, better deals, and better overall customer service. They make things easy for customers. And yes they don't have the most awesome phones on the market, but for those who find that a problem, they usually find a solution or they aren't T-mobile customers. T-mobile offers a good selection at a fair price and if this merger happens, then I believe 44% of the cell phone market (that's AT&T's market share plus T-mobile's market share) will be unhappy as this will most likely take 3-5 years of headache and lost customers to start to even out and become "good"

851.	Lauren Kinsall	Anaheim, CA	I have had tmobile service for ten years, (as long as I have had a phone) and have seen and been a part of plans from other carriers and I have only ever been happy with my tmobile plan. If ATT takes over, I will switch in a hot second. At that point, I guess TMobile is not the highest rated in customer service, at least not to its US customers.

872.	Edrica Webb	Indianapolis, IN	You're both too big already.
873.	Hans-Erik Stegeby	Thousand Oaks, CA	This will create a GSM monopoly in the USA and AT&T is back to being on the top again. Prices will be raised and customer service will go down. Freedom that T-mobile offers on their handsets will be gone as AT&T like to keep their customers in a bubble. This is a bad idea.

885.	jonathan cartland	El Rito, NM	Corporate disregard for people must be stopped!!
886.	Yolanda Monge-martinez	Port Richey, FL	Totally disagree with the merger, AT&T is the most expensive cellphone and home phone provider. The worst company in the United States. Not "Customer Friendly" at all.
887.	Justin Tyre	Collinsville, OK	I have been a Tmobile customer for many years now due to their great customer service. I switched from ATT due to very bad customer service. In america we have the choice to switch when we feel we have been wronged, but this would force me due to contract obligations to be with a company I due not want to deal with. If we are forced into this all contracts should be voided to let us have the option to pick another carrier.
888.	M. M. Harrell	St. Louis, MO	This merger will kill competition and therefore innovation and any possibility of reasonable pricing. Approving this would be a step backwards for the US and show to the rest of the world how our government has totally sold out to big corporate interests. I sincerely pray that the FCC has the courage to stop this monopoly before it happens!

890.	Sebastian Hotlos	Mount Prospect, IL	7 years I am a loyal customer of T-Mobile, this is a good company and very interconnected brand, T-Mobile has the best service for their customers and the lowest prices for services. After the merger with AT&T's prices for services rise. AT & T is bad business and poor quality. I'm Polish and all my friends are T-Mobile customers . AT&T will become a monopolist

895.	russall booth	duncan, OK	i think t mobile sucks but at&t sucks even more ! i have t-mobile now and can't even use my data service because of where i live but, at&t really blows because of there prices i would rather pay for a data plan that i can only use in certain places than pay more for worse service !
896.	Debra Vincent	Sugar Land, TX	I left AT&T after they acquired Cingular due to their poor quality of service, high prices and terrible customer service. I went to T-Mobile and have been a loyal customer for many years due to their excellent service quality, lower prices and great customer service. If AT&T is permitted to acquire T-Mobile it will further eliminate competition, reduce the quality of service and increase prices, all of which is detrimental to the wireless consumer. AT&T is attempting to completely take over the wireless industry. This merger should NOT be approved.
897.	James Washington	corpus christi, TX	Our economy is already hurting, and now the common man will be forced to pay more for service since there are no other GSM options for most of the USA.

910.	Daniel Alonso	West New York, NJ	As a loyal customer of T-mobile for 7 years now I would not like this buyout to be approved. T-Mobile has had affordable pricing and their Customer Service has been top notch. From what i've heard from AT&T customers, AT&T has nothing but less than what we T-mobile customers have. Please do not let this offer go through.

913.	Linda Furtado	Nashville, TN	Give me a choice that doesn't require me leaving something good. I like being a T-Mobile customer. Best customer service I've ever had, best plan options, best... everything I've ever needed and now if this happens I'm just going back to Sprint (The worst experience I ever had all around). I've heard good things about Sprint lately and if this goes down I'm saying "Forget AT&T, I'm going Sprint or Verizon even" That's saying a lot as much as I've bad mouthed Sprint in the past. This whole thing just stinks of messing things up for the consumers. I don't want to be a part of that.
914.	K Bartha	Torrance, CA	My family and I have been customers for about 10 years. I have a second phone that's AT&T (not out of choice) and I'm not happy with their service or connectivity. I've been happy with T-Mobile!

921.	Josh Witbeck	Salt Lake City, UT	Most people on T-mobile are here because we despise the way At&t and Verizon do business. We like having a responsible company that treats it's customers fairly and do not leave us feeling violated at the end of the day. Please do not allow this merger to go through.
922.	Nadia Villasenor	Grand Prairie, TX	I TREMENDOUSLY oppose the hike in rates that will occur to my bill if AT&T does not grandfather me in. I switched to T-mobile to get AWAY FROM AT&T!!! I did not like their service, customer service, rates, nor plans, and from what I've heard from ALL of my friends that have AT&T, NOTHING has changes since 6-7 years ago when I ended my contract with them to come to T-mobile. I am a HAPPY, LOYAL, AND SATISFIED T-MOBILE customer and wish to continue that way. Thank you.
923.	paul losavitch	wichita, KS	If this merger is ballowed to go through it will be a slap in the face tpbtue consumers of this country. We as consumers need to stand up for ourselves because its painfully obvious that no one else is going to protect us.

T-Mobile has always had the best plans, rates and superior customer service. I chose based on their reputation and have enjoyed being a customer for many years now (11+). 957.	Keizo Beeck	Shorewood, WI	This should never be approve. At&t will become so powerful. Other players can't compete. At&t has tons of business: TV, phone, cellphone etc..That's why they should never be allowed. This will hurt small players like Sprint and Metro PCS. 962.	Daniel Dominguez	albuquerque, NM	As a relative of someone who has had att, I can attest to the overall lack of quality service by att. When My relative switched to another carrier the customer service was so much better, and the over all call quality increased substantially. I have known numerous other people who have switched from att to another carrier because of the aforementioned issues with att. Not only is the acquisition of T-mobile wrong, But it should be illegal for it to happen because it monopolizes the wireless industry.

997.	Carrie Williamson	Granite City, IL	The move to acquire T-Mobile is good for big business and bad for consumers. This move further limits our choices in wireless providers and forces us to pay higher prices because there is less competition.
998.	Banney Ley	Jamaica, NY	This will create a GSM monopoly and reduce competition in the wireless industry. This merger would bring NOTHING to the T-Mobile consumer other than higher fees, and inconvenience. T-Mobile's hard work in achieving the highest level of customer satisfaction would all have been done in vain and would cite hundreds [if not thousands] of jobs lost, being that AT&T is KNOWN for cutting jobs first. As an American I like to have choices and freedom; the freedom to choose what [GSM] phone service I want, and what plans I want. I REFUSE to have Ma Bell holding us hostage at high prices, and I WILL NOT STAND FOR IT!

I absolutely HATE AT&T because their service is exactly what a monopoly is....BULLSHIT! We should be free to have competitive choices and decide for ourselves who our wireless carrier is. My family tried AT&T when I was a teen and switched to T-mobile, and now as an adult I CHOOSE to keep my contract with T-mobile. We reserve the right to choose and shouldn't be forced to go over to the crappy service we CHOSE NOT TO GET IN THE FIRST PLACE!

1,029. Trisha Turner	Loveland, CO	I chose T-Mobile for many reasons over other cell providers. This merger takes away my choice and is creating a monopoly on service. I this merger is approved I will bve forced to take my business elsewhere as I will not use AT&T. I just resigned a two year contract with T-Mobile and am very upset to hear about this. This is a losing proposition by T-Mobile as it is discouraging new customers and current customers are leaving. I will not pay earlty termination fees because this is being forced on me. 1,034. Cristie Poole	Troutdale, OR	I will cancel my 7+ year, 4 line acct if this merger goes through. I do not want ATT again, ever. There is a reason I am not with them now and rather chose T-Mobile for long (continues on next page)

1,034. Cristie Poole	Troutdale, OR	<i>(continued from previous page)</i> term, this is an anti-competition move and not a good choice. Keep T-Mobile just that, T-Mobile, not ATT-Mobile. I want to keep my phones I just bought, I want to keep my grandfathered plan that works perfectly for my family. We have a good thing, don't screw it up!!
1,035. Antonio Tolliver	Chicago, IL	If AT&T buys T-Mobile my phone bill will double, my download speed will be slower and I will not have my unlimited data, voice and text messaging. AT&T says they have an unlimited plan, however, they begin charging for downloads after 2 gigs, they have a data cap they do not tell their customers about. 39,000+ people will loose their jobs as well. This economy cannot afford to loose all those jobs. I cannot imagine going from the highest rated service and complete customer satisfaction to AT&T. I once was a Cingular customer and when AT&T took them over my service went down the drain along with my service, constant dropped calls and no service zones. Why should I be forced to pay more for less?? PLEASE do not let this happen FCC!
1,036. Christa Stover	Little Elm, TX	
1,037. Sarah Roble	Thornton, CO	T-Mobile Customer for 6 yrs. I am saddened by this merger, T-Mobile customers will be left paying more, We chose Tmobile because of it's plans, service and network strength, AT&T does not offer the affordable plans that T-Mobile does, and I don't like their Data plans which are overpriced and under deliver.
1,038. Luis Zarco	Cicero, IL	
1,039. Natalia Robinson	Camarillo, CA	Many years ago I left AT&T for T-mobile and never looked back. AT&T is notoriously famous for high prices and bad customer service. The merger will negatively affect the T-mobile customers and eventually the wireless provider market. Please stop the merger. I do promise to leave AT&T as soon as the merger is completed.
1,040. trisan edwards	covington, GA	I am a T-Mobile customer and I don't want my rates to go up and my customer service to go down. Protect competition!

1,048. Dana Stanley	Four Oaks, NC	There should NOT be so little competition in the wireless/cell phone arena. Consumers should have a wide range of options for wireless plans. Consumers should also have AFFORDABLE options and features that work in their areas. Stop letting these too big companies swallow all the competition!
1,049. Colin Yapp	Houston, TX	This is terrible for the consumer and will stifle future companies from being able to enter the market.
1,050. Mark Hayes	Buffalo, MN	Sprint bought Nextel with the understanding the IDEN network would be maintained. That was and is a disaster. We had perfect service with NEXTEL until the merger than it all went to hell. AT&T is going to bury T-mobile customers in the end
1,051. Jeffery Haynes	Lincoln, AL	Please don't approve this!
1,052. Anthony Densmore	Meridianville, AL	There are only 4 major players. AT&T is absolutely horrible in coverage and service/assistance. Why put this burden of control and money on our US Citizens?
1,053. Tiffany Amodeo	Cincinnati, OH	I switched from ATT to T-moble 7 years ago b/c I hated ATT and they had bad service, I have never had problems with Tmobile. I think this is a bad idea...
1,054. Derrick Ford	Riverside, CA	1 GSM Carrier in the US would be a Monopoly.
1,055. Theodore Calkins	Escondido, CA	Save T-Mobile, it saves "us" money.
1,056. Tony Chan	Bronx, NY	
1,057. Lucia Barrios	chicago, IL	
1,058. stephanie karpowicz	Las Vegas, NV	ATT should not have a monopoly of GSM service in America. ATT does not stand for the American people and will not assist in our current economic crisis. Forcing customers to pay higher fees for less service is not acceptable. ATT will not provide Americans with more jobs, it will distribute them overseas to people that cannot assist us. If we want to build a better America we need to start by having options available to us. ATT is known to monopolize markets and they should be penalized for doing so, not rewarded. During our economic struggles we need to help the people that are less fortunate. Having cheaper more reliable cell phone options is one way to do this. Without a cell phone people cannot find work. Speaking from experience, I was homeless once and if it wasn't for the cheap pay as you go cell phone I would probably never made it off the streets. Put an end the rich get richer and the poor stay poor and continue to allow America to be a place of opportunity.
1,059. patti welch	albuquerque, NM	I will leave and go to verizon if this happens. I like having choices. I like an open market. I like using phones of my choosing.

1,060. Mariann Horton	Bridgeport, CT	Been a loyal customer and fan of T-Mobile for 10 years, Had family and friends switch from At&t and other carriers and they too were HAPPY with T-Mobile. I do not believe anything At&t says and DO NOT TRUST THEM!!! Where is our government that is suppose to control these scoundrals from swallowing up perfectly good companies. So T-Mobile is trying to get their customers to sign a 2 year contract NOW and says they will not change anything but as soon as that contract is over you will be sorry you didnt switch, if you switch now as long as you have NO contract with them and start with a different carrier think about how much money you will save not to mention less stress until At&t merges with them if our government dont get off their butts and stop this NOW!!!
1,061. Robert Hoellering	El Dorado, KS	This has to be stopped AT&T should not be aloud to buy t-mobile it will unbalance the wireless carriers in the USA.
1,062. Mike S	Belmont, NC	Mr. Chairman, this is a BAD idea, as evidenced in the THOUSANDS of voices in opposition. This will not only have a negative effect on millions of consumers, but on the industry as well. Please, just say NO.

1,064. Christa Perez	Hayward, CA	
1,065. Heather Dominguez	East Greenville, PA	As a long-time employee and customer of T-Mobile, I am firmly opposed to this merger. Just like when SunCom was acquired, this is going to cause many of us in technical support (and other call centers) our jobs. As a consumer, I'm appalled that a monopoly such as this would even be considered by Philip Humm and DT. Please DO NOT let this happen. I have too much invested in this company.
1,066. Fernando Tobias	Skokie, IL	It's clear what's going to happen if the Merger proceeds: Less competition (ATT will be the only GSM company in the U.S.) T-Mobile quality service will disappear and be replaced by ATT's subpar service.

FCC and DOJ please do not approve this merger. If you do allow it to take place, the consumers will be the losers in the end and Ma Bell will be back...

1,107. Tunisha Potter	San Antonio, TX	I have been a T-Mobile customer for years, and at one point in time was a customer of AT&T. I left AT&T for many reasons including issues with the network,constant fees, and price hikes, but the main reason for me leaving them was because of their horrible, unhelpful customer service. I've been satisfied with T-Mobile's service and customer services and invested in their stocks because I knew that they were a strong competitor to companies such as AT&T. My hope was that they would expand their services and continue to provide customers with excellent service. This will not happen under the direction of AT&T. I WILL leave and pull my money from T-Mobile's stocks if this deal is approved.

1,109. Alex Pontois	ypsilanti, MI	
1,110. Benjamin Green	Venice, CA	After the precedent is set with ATT & T-Mobile, there will be nothing to stop Verizon from buying Sprint, leaving 99% of US customers with just 2 carriers to choose from. I thought we welcomed competition in our economy, not corporate collusion to kill it off. Please set an example and don't let this deal go through.
1,111. Mysti Gilbert	Redmond, OR	As an employee of T-Mobile never having worked for AT&T before, I feel my job is in danger, as well as my benefits and my family and I's cell phone service through T-Mobile. AT&T can claim that they are going to keep T-Mobile prices the same, but I do not see it happening. Just as Cingular's prices went through the roof, I see it happening to T-mobile as well. This merger is just monopolizing the cell phone industry; and us employees were basically promised by our GM's that a merger would not be in the works when the new CEO took over. I am thoroughly disappointed with my employer, as well as my provider.
1,112. Joshua Bennett	Redmond, OR	monopoly! that about sums it up! att is a greedy corporation, they will destroy our wallets, and with the economy beeing as it is...that leaving asside they will put a stop to innovation, and natural evolution of things...with their damn greed.

1,125. Serena Rodriguez	Elgin, IL	Please do not allow this merger to go through. If this goes through I will limited to less than a handful of cellphone carrier choices in my area that are even affordable. You can also guarantee that this merger will put hundereds of Americans out of work adding to the unemployment crisis. AT&T outsources. KEEP JOBS IN AMERICA!!!
1,126. Scott Filler	Santa Clara, CA	Tmobile provides much needed competition in regards to price, quality of service and especially data packages. ATT is the exact opposite. I'm concerned that the merger will mean less competition and innovation. Say good bye to unlimited data plans, my faves, no bandwidth caps.
1,127. Steve Beswick	Ontario, CA	My family and I moved our service from AT&T to T-Mobile last year, due to the fact that AT&T treated us like dirt. My family has been through all four of the major US wireless carriers, and T-Mobile is the only one that has ever treated us with common decency. I have been a loyal customer for almost 10 years, and just to show you how loyal I am....I am a Verizon employee that has yet to change over simply because of the high rates that even employees have to pay, not to mention the service is not all it's cracked up to be for what people have to pay. If this merger goes through you can guarantee many Americans will be out work. This was the same outcome when Verizon aquired Alltel. FCC and DOJ if you approved this merger, I hope your pockets are deep enough to pay for the long list of unemployed people, because I know for a fact that AT&T outsources to other countries. We need to keep our jobs hear in America.

1,191. Jarrett English	Milwaukee, WI	T-mobile is a great company that takes care of it's customers to the utmost. At&t does not. T-mobiles prices are MUCH lower than At&t and it's service better. If you allow this deal to go through you will be allowing the At&t monopoly (with much greater pull in the modern era) to reassemble itself as a menace to society. Don't forget the PEOPLE (as in human beings) own the airwaves not corporate "persons". If you destroy the Peoples choice in the matter you will be contributing to the destruction of democracy because communication is more important in the modern world than it ever was before.

I was VERY dissatisfied with AT&T's over all service, including their penchant for hidden fees and charges. I recently switched to T- Mobile pre-paid from Simple Mobile, after yet another awful experience with them. Let's be real here, this is all about AT&T wanting to make one of the major wireless carrier companies that actually DOES have good service a subsidiary, while it tries to compete Verizon in a game of "Top This". Well, the only thing they'll be topping each other in if this deal goes through, is which company will charge the most for sub-par service.

1,199. Ben Elder	fuquay varina, NC	I refuse to have nonsense data caps and a bill thats 50 bucks more for less service.. also, i dont want to have to listen to my wireless carrier complaining day in and out about how i should pay them more money because of iphone users
1,200. Kelly Zenisek	Austin, TX	I absolutely will leave if this changes to AT&T!!!!!!! The y are the worst !!'ve had T-tmobile since 2004 and have been so happy . I left AT&T because of so many hidden charges and horrible customer service!! Please no AT&T!!!!!!!

1,202. Allison Plunk	Forney, TX	
1,203. Ben Alexander	St. Louis, MO	This merger would put customers at the mercy of these companies more so than they already are. T-Mobile provides invaluable competition against AT&T and is vital to the healthy function of the mobile communications market. If you don't act now to prevent this from happening, you are just setting yourselves up to have to take more drastic measures later when AT&T has taken advantage of their partial monopoly of GSM service providers.

1,204. Nikki Handy	Louisville, KY	If this deal goes through, I'm leaving and going to another company. AT&T has crappy plans and charge outrageous prices. Right now I have unlimited data and texting and they don't have anything CLOSE to my current plan. In fact, I would get less services than I have now and then have to pay out the butt for that! I don't think so! I will take my 10 years of loyalty to someone who's not going to take advantage of it's customers. We all know AT&T will raise our rates and get rid of our unlimited services just to try to make up for that 39 BILLION price tag!!! This is one customer you will not get AT&T!!
1,205. Nicholas Cornia	Salt Lake City, UT	I have been a T-Mobile customer for 9 years and have always loved their customer service, pricing and coverage. Will not be an AT&T customer. AT&T is not a company worthy of my money or my 3 lines. Also, something very telling of AT&T is that they only have 3 times the customers that T-Mobile does but have 10 times as many employees. This is why we will be paying more. I love German efficiency.(I know it is not counting the Deutsche Telekom employees overseas, but still) Source: http://www.cnet.com/8301-17918_1-20045216-85.html?tag=mncol Also, here is comparison of the current price plans: http://www.cnet.com/8301-17918_1-20045259-85.html?tag=mncol

1,207. Andy Lynn	Douglasville, GA	
1,208. Chris Hanson	Evergreen, CO	If you permit this merger, you need to take genuine steps to guarantee the customers are treated well. AT&T is notorious for terrible service, and have demonstrated they don't have the consumers' best interests at heart at all.
1,209. Cecil Windham	Georgetown, SC	We Tmobile customers should get grandfathered in on our unlimited plans if the sale goes through but the first time we need to add anything to our plan they will make us change everything over to the current AT&T price. The same thing happened to me when Tmobile bought Suncom. We need more competition in wireless service, not less.....
1,210. Wes Hopper	somewherein, KY	I like how I wasn't forced to buy a 30\$/month data plan for a "smartphone" that everyone else makes you buy. Now my phone bill is going to be jacked up another 30\$ from a different carrier.

1,253. David Arshad	Miami, FL	This purchase will be negatively impact consumer by forcing them to narrow their options. This increases to risk of AT&T forming a monopoly, by which it is historically known of trying to do in the past. Keep T-mobile USA, it is a great company supported by many workers and customers.
1,254. Michael Ross	Virginia Beach, VA	Esteemed ladies and gentlemen of the FCC, While I'm uncertain of any legal precedent allowing your intervention and uncertain if you retain any real regulating power in today's political environment, I must express my great concern as both a conscientious American and a customer of T-Mobile, at the planned buyout of T-Mobile by AT&T. We must march to a measured pace to protect the freedom of individual communication that is so vital to a vibrant democracy, and I fear that with an unprecedented lion's share of the mobile market and a history of abuses, AT&T will likely fail in protecting those vital liberties. Humbly and respectfully, Michael C. Ross

1,327. Daniel Goulart	Fremont, CA	I've been a customer of T-Mobile's for years, purely because of their customer service, their rates, and they weren't AT&T! This merger would not only decrease what I hold as one of the last halfway decent telecoms in the US, but it would force me to get another phone as well, considering their forced removal of 3G services on current T-mobile phones.

1,335. Stewart Adams	Santa Barbara, CA	
1,336. Bryan McLaughlin	Montgomery, AL	There is no way this merger will end up benefiting consumers from a cost standpoint. We need competition. AT&T is just trying to remove the only other nationwide GSM carrier they compete with (and that frequently undercuts them in price and is more generous with minutes and data). Don't let them do it.
1,337. Aimee Gomes	Assonet, MA	
1,338. G Lee	Okc, OK	AT&T's prices and fees are outrageous it's absurd to let them buy-out anything and become even larger. Where do you think the 39 BILLION came from - from overcharging everyone for years.
1,339. Anthony Santaferri	Redmond, WA	Ma Bell (AT&T) was broken up in 1984 and since then has slowly under approved mergers almost completely put itself back together. By allowing this merger, the FCC would be taking a step towards recreating a monopoly it was setup to prevent. Do not allow such an action to go on the FCC's shoulders, take the larger stand for the customer.
1,340. Jeremy Singh	Astoria, NY	I can't believe T-Mobile would allow this to happen. I feel like I have been sold out after being a loyal customer for over 5 years. I never signed a contract giving T-Mobile permission to sell me to AT&T. My contract has been breached by someone other than me. This is very wrong.
1,341. Floyd Young	Athens, TN	The merger of these 2 companies will eliminate choice and competition and will ultimately drive prices up and choices down for consumers.
1,342. M Sackler	Los Angeles, CA	This merger will be terrible for consumers w/loss of competition, much less competitive pricing and one step away from going back to the old AT&T monopoly days. If this goes through, all T-Mobile customers must be grandfathered in with their current pricing plans regardless of contract expiration. I vowed never to go back to AT&T after years of bad service. Please don't squeeze us out.

1,377. Jeannette Calvo	Weston, FL	I do NOT want to lose my excellent customer service and great rate plans. I hate AT&T; their customer service is atrocious, their plans are super expensive, and a merger will effectively create a non-competitive arena in the cell phone market. This is an anti-trust issue for sure.
1,378. Nicholas Tolstoshev	Austin, TX	I feel that this will reduce competition and lead to a monopoly environment in the mobile phone market.
1,379. Marlon Sherman	Burlingame, CA	Monopoly = Bad, competition is good. It was for a good reason that ATT was broken up before.

Im a T-mobile customer and i hate that this is happening buh it gives no much choice but if at&t doesnt change its ahole ways then imma move (:
1,404. Allen Dundek	St Paul, MN	Reducing the number of GSM carriers to just one provider would in the end increase costs to consumers through decreased competition. Please deny this merger.

1,406. monica farinas	pembroke pines, FL	T-mobile was perfect! At&t will monopolize and it'll be disastrous!!
1,407. Devon Ljunghammar	Woodinville, WA	The benefits of this merger are significantly dwarfed by the negative effects of the deal. This affects the entire US, not just T-mobile and AT&T customers. Let AT&T change or die, don't "bail" them out by letting them take the easy road, sacrificing the last honest major cell carrier in the US.
1,408. melissa craig	portland, OR	I have been with tmobile since they were voicestream i will switch away from att and what happens to our plans and contracts? I will switch to some other company! 1,419. Rich Milici	saddle brook, NJ	This is awful. I was working at Cingular during the last merger. They made "legacy" ATT wireless customers "force" upgrade devices and plans, and then did it again after they officially bought out Cingular (which they already owned on the back end) ATT is the closest real entity striving for global domination. Allowing the removal of one of the only 2 companies that keeps them in check could possibly the worst thing that could ever happen. And if any one does not think that communication companies do not affect the economy, you are dead wrong. ATT has an extra \$39.billion because they over charge their customers and average of close to 5million dollars daily!

1,433. Peter Nero	Marietta, GA	ATT only wants to create as big a monopoly as they can. They want to buy T-mobile so they can completely eliminate any and all competition in the GSM arena. All this in the name of greed!
1,434. Noel c.	San Francisco, CA	AT&T is already too powerful of a company. Merging with T-Mobile will only bring about a monopoly. Also, T-Mobile -- on its own -- is already a good, well-respected carrier.
1,435. Dave mangal	loganville, GA	with this merger it will mean customer pay's more money and take the competition away.
1,436. Jeff Wick	Dassel, MN	T-mobile should stay an independent company. If this merge happens what will happen to the employees? AT&T can build out the towers themselves, its wrong to just buy out another carrier just because they are LAZY
1,437. Delbert Shiver	Clever, MO	
1,438. Nick Alexev	houston, TX	Current T-Mobile customer who left AT&T a few months ago. I feel that AT&T will only continue to remove consumer choices if it is allowed to purchase T-Mobile USA. 1,440. Griffin Potts	allen, TX	i don tlike this
1,441. Femi Omoni	Austin, TX	I believe that in order to maintain fair competition, there needs to be a minimum of two wireless carriers in the US who offer GSM service. If this deal is approved, AT&T will be in a position to control pricing on all GSM phones sold in the US. Additionally, it will be able to charge whatever it wants for service on GSM plans, which will significantly impact people who need such phones and plans due to regular international travel. This acquisition is NOT in the best interest of the American people.

1,454. Jeremy Lueken	Las Vegas, NV	As being a part of the wireless industry, for 6+years, and selling each of the major carriers including the smaller ones I feel that this merger will not only affect the consumer but everyone that works in the wireless industry. This will cause Americans to lose jobs no doubt about it. I have also seen several mergers between companies over the years and I guarantee Tmobile customers will lose out and be forced to pay higher prices in the long run whether they stay with AT&T or goto another carrier. Prices will increase as choice will decrease. As for being able to supply most of the U.S. with high speed Internet, while true to a point, will NOT happen due to price for the consumer.
1,455. Robert Soto	Weehawken, NJ	I love T-Mobile service and their cheap plans. I don't make a lot of money and AT&T is a more expensive company. Times are hard right now for a lot of people and if this acquisition goes through it is going to hurt an already struggling economy. I hope this deal does not i repeat does not go through.
1,470. Heather McDade	Dresden, TN	ATT is a company known to be especially not innovative & definitely not open. The value vs. price paid for ATT service is non existent. They've been dictators by picking & choosing what applications a customer can and cannot have access to on their devices. Their customer service is not easy to deal with & I worked in wireless long enough to see that the AVRGE DEPOSIT FOR A NEW ATT CUSTOMER IS ABOUT \$700. All of these things are completely opposite of what T-mobile currently stands for. To allow this merger would be the death of freedom and choice to the consumer and bring forth a monster in the wireless industry. A GSM monopoly WILL have detrimental effect on the nation as a whole.

If you continue to allow these giants to merge, you're causing several problems: 1) Does too large to fail sound familiar? 2) Having more companies encourages competition, stimulates innovation and keeps prices down. 3) Both companies have horrible customer service already. Allowing them to merge will make it worse. 4) AT&T was already broken up 20 years ago, why are you allowing them to become a monopoly again. 5) You're encouraging the mantra: "If you can't beat them, buy them."

I for one do not want to see the T-Mobile name get demolished like this. Also the only outcome I see from this merger is price hikes in the plans and if we are not covered by the grandfather clause that means we will be forced to pay more per month and I dont know about the rest of the customers but I cant afford higher prices the economy is bad enough as it is.
1,533. Larry Johnson	Waianae, HI	I have been with the same company (Aerial / Voicestream/ T-Mobile) for 16 years. I do NOT want to see T-mobile taken over by ATT. 1,545. Amaury Sanchez	Providence, RI	The bigger companies get, the more disregard they hold for customers and even the law at times. (eg., Big Oil) AT&T currently has ridiculous rates (I'd have to pay exactly \$60 more for what I now have with t-mobile, data text and voice) and with T-Mo out of the way, there is no GSM alternative for customers to express dissatisfaction. Don't allow this to go through!!!

1,547. Benjamin Yee	Fremont, CA	As a former ATT customer and current T-Mobile customer. I went to T-Mobile to get away from ATT's unfair pricing and data plans. ATT forces customers to be on plans they don't need or want. Customer service is non-existent at ATT and I have been lied at by them. They use strong arm practices and will end T-Mobile's highest customer satisfaction rating since ATT is the lowest. Having been through a Fortune 500 merger, I expect ATT will dominate the corporate culture and eliminate all vestiges of T-Mobile's culture and business practices.
1,548. 1,553. Derek Lombardi	Smithtown, NY	I have been with T-Mobile since 2006.. Great service.. Great phones etc.. I have heard the horror stories of AT&T from friends.. If this deal goes through I WILL go to Sprint or Verizon.. I'm not dealing with AT&T's horrible service / coverage / unfair pricing / data throttling etc..
1,554. chris bickley	st. louis, MO	Att has a data capof only 4GB??? which is unfair for the high rates they charge. Thier rate plans are too expensive, with so little features!
1,555. James Cox	Fort Scott, KS	Allowing this would the worst mistake in the history of cellular communications. It would leave only ONE GSM carrier and some people must use a GSM carrier. As a result of this merger, those people would have NO option but to use AT&T and everyone deserves options.
1,556. Randy Greene	Waco, TX	AT&T Sucks! By allowing the merger of T-Mobile and AT&T, you are helping AT&T become a monopoly once more. That would make it the ONLY national GSM provider in the USA. Effectively giving them the market in the USA for global mobile capabilities, as GSM is the main international service. There will be a steady war between VZW & ATT for consumers. The price war that follows will definitely affect the ability of the providers to establish a stable, universal nation-wide wireless internet. Please, see reason. You are putting AT&T back into a monopoly stance and the taxpayers can't afford another Antitrust law suit.

1,559. J Bethel	Humble, TX	I have been a loyal and faithful customer of T-Mobile for I dont' know how many years. I have only had a few problems are they were able to be fixed right away. I have even been compensated by T-Mobile for the times that my phone has been down (i.e. dropped calls, in a dead zones/areas)...I have heard nothing good about AT&T except for the iPhone; which who really cares. I have a MyTouch 4G and it is way better than the highly expensive iPhone. The plans with T-Mobile are the best plans that are offered in the US. Please do not approve this merger. Lots of T-Mobile customers will jump ship if this happens. Especially if the network is not improved and plans are increased and/or eliminated.
1,560. Thomas Finn	mesa, AZ	I have been with T-Mobile for over 10 years.. I can't stand to see this happen!

Though I've been tempted to go to AT&T because of the I-Phone hype so many times, I remained a loyal T-mobile customer because of the following reasons:</p> <ul style="list-style-type: none"> - Excellent customer service and tech support - Great reception, awesome voice quality and no drop calls - Amazing, very affordable rate plans that are customized to individual needs - unlimited data for smart phones - I don't think there's any other service provider right now that can measure up to T-mobile. <p>Stop AT&T from limiting a consumer's choice to remain with an excellent service provider, like T-Mobile. The reason the FCC has been entrusted with licensing our frequency spectrum is to ensure an equitable playing field - it will be turning it's back on that responsibility if it permits this antitrust move to further proceed. AT&T continues to thumb it's nose at the 4th amendment and has not been held accountable for it's complicity in illegal and unconstitutional blanket wiretapping - and you're going to make this our only choice? To do so is un-American and treasonous.</p>

1,578. Melisa Eslinger	Hope Mills, NC	I enjoy being a tmobile customer because of the reasonable plans. I do not want to be transfered to any At&t plans or be a customer of theirs. Please keep tmobile as it is for loyal customers.
1,579. Matt Boyle	Redmond, OR	We had to break up MA Bell back in 84 and if you allow this to go through it's going to cause a lot more work and money in having to do it again. As soon as they see all the my faves and great plans most of us have they'll send out a "new fees and service change" document to either make us change our plans or add more \$ to them. Next, our TMO phones will "all of sudden" start having problems with the new AT&T network...but its ok because I am sure AT&T will have a kick ass promotion as soon as it happens....haha! I'd rather cancel and go to sprint.
1,594. patty ryan	henrico, VA	Tmobile is the best and at&t is not good . ATT also intends to make all current Tmobile customers part with the current phones creating additional expense to Tmobile customers (http://www.slashgear.com/t-mobile-customers-will-have-to-replace making customers paid for product obsolete. 1,626. Brad Payne	West Chester, OH	I had AT&T and left them to go to a carrier that didnt destroy the Android OS with their limitations. Support from ATT was worthless, while T-Mobiles support is good and they let you have the full experience of the phone. If this goes through, I will cancel my contract the moment it happens.
1,627. Adam D	Monaca, PA	I'm currently a T-Mobile USA employee, and with the exception of a two year hiatus, have been since 2004. This is horrible news, as T-Mobile is an amazing company to work for. I understand the monopolization of the companies, customer worries, etc. As employees we're just as worried, but for our jobs, not our service.

1,629. Bryan Kelly	The Woodlands, TX	I have been with T-mobile for over 10 years now and always had great phone service and customer service. I have a work phone that is an iPhone with AT&T. I have had so many problems with dropped calls that it has become a paper weight while my T-Mobile personal phone has become both work and personal. I contacted AT&T several times about dropped calls and one employee told me "well if it doesn't work there don't go there." Needless to say I was shocked at that reply. So please don't let me quality phone and service go to people like that. You are a German Company and I know for one, being German, that German people have a lot of pride and honor were AT&T doesn't.

1,641. Nathan Cox	Clovis`, CA	As a loyal T-Mobile customer for several years, I am highly opposed to the notion of AT&T taking the reins. So opposed, in fact, that should it come to fruition I'll be making a switch to -any- other carrier. AT&T has a long history (and yes, I was once a customer of theirs in my ignorance of youth) of screwing their customers through disinformation and terrible customer service. I have made every attempt to stay clear of them. On the other side of the coin, I love T-Mobile. Despite the fact that I get worse cell reception from T-Mobile, the fact that the customer service is great and the unlimited plan is -actually- unlimited more than makes up for this.
1,642. Amber Hawkins	Orlando, FL	I have been a loyal Tmobile customer for many years. I moved to Tmobile after leaving Cingular because AT&T bought them out. I WILL leave if this goes through. I refuse to be bullied by this horrible tyrant of a corporation.

1,644. Christopher Karnes	Tacoma, WA	I switched from Verizon to T-Mobile because I admired the integrity of their decision to block illegal NSA wiretapping on Americans. I continued to stay with them when they took a risk on Android and I have never looked back - adding several other people to my low cost family plan. I prefer open devices, low prices, and unlimited data plans. AT&T offers none of these. Deny this merger or we'll be headed for a monopoly-duopoly with less choices for devices and providers.

1,646. Jessica Hurado	San Diego, CA	I will be switching carriers if this goes through. AT&T couldn't get my landline to work properly. A short in the wiring caused 911 disatches to my address, they swore up and down it was MY fault. Sometimes it would happen when NOBODY was home!. Tell that to the police officers that came to my house on a regular basis, they had seen it before and knew it was a technical issue with AT&T. I cancelled my landline because I couldn't deal with it, and they still charged me for diconnected service two months after my cancellation. Needless to say I don't like having to pay Verizon's inflated prices, but I would rather do business with anybody BUT AT&T.
1,647. Donna Royce	La Crosse, WI	I joined T-Mobile in 2002 (NINE YEARS AS OF THIS YEAR!) when they were "Voicestream" and I have had very few problems and those few problems were taken care of rather fast! The only real big problem I have had with T-Mobile has been their DAMN OUTSOURCING of some services like Tech. Support and Customer Support to countries where the people there can hardly speak or understand USA English and if AT&T takes over, that problem will be even WORSE and AT&T COULD CARE LESS WHAT THE CUSTOMERS THINK OR WANT! AT&T just wants to own the entire phone system again!
1,648. peter nguy	quincy, MA	This merger creates a monopoly on the GSM cellular network. This act violates anti-monopoly laws and allows AT&T to grow into a company that can freely dictate prices with little care for the customers.
1,649. Christopher Cook	Valrico, FL	
1,650. martin valarde	alamo, TX	By allowing AT&T to purchase T-Mobile there is no other low cost equalizer in the mobile market. Prices will only go up. Of course I closed my account with them that month and will never do anything with att ever again.
1,669. John Waers	Longmont, CO	Whatever happened to antitrust laws? The wireless oligopoly resulting from this deal would be little better for the customer than a monopoly. Competition and innovation would suffer, and like the Wall Street banksters, AT&T would be "too big to fail."
1,670. Joshua Chester	Federal Way, WA	This move will only hurt consumers because it will force the Sprint to consider selling out to Verizon, leaving US consumers with only two mobile choices. This will also hurt TMobile customers as their bandwidth gets sucked up by AT&Ts current users who are already taxing their network in many areas. Not to mention all the employees that will be laid off. This is nothing but the upper management looking out for themselves and stomping on both the consumers and on the lower employees.

1,699. Steve Treible	Lackawanna, NY	By allowing the merger go through, it will reduce competition in the market by reducing the number of choices available to consumers. This merger is not in the best interest of the consumer. T-Mobile is one of the best wireless providers I've ever come across and their service, both coverage and customer service are second to none.

1,715. Monica Oliver	Baltimore, MD	
1,716. Jacob Punch	Fort Pierce, FL	I have a family plan with tmobile and for the last 5 years I have had nothing but GREAT service from them. Their pricing and general care of customers cannot be matched. Although this may be good for some people I see nothing but change in the worst way as far as my service goes. There are people out there that want great prices and customer care over a u.s. map blanketed in service areas.
1,717. PETE HERNANDEZ	Los Angeles, CA	I've been with T-Mobile since '03. It's sad to see it go to AT&T. Had issues before with AT&T and Verizon with no desires of ever going back and never liked Sprint. Who am I left with now?
1,718. Jezzica Cabrera	Fort Worth, TX	I dont want that to happen if it those i hope we still get to pay the same as we do with T-Mobile! The only good thing is the iPhone 4.

1,722. Donald KEMP	Keene, NH	I believe that acquisition will reduce resulting in higher prices and lower level of service
1,723. Daniel Silveri	Tarzana, CA	A monopoly on anything is never a good idea, let alone one on GSM cell phone service. Companies competing allows for more innovation and value to customers.
1,724. Wesley Tavares	Kaneohe, HI	I've tried many different carriers that provided service over the years, some having been bought out by other providers. However, I have returned to T-Mobile several times because it still offers better service plans and prices than other national carriers. AT&T recently placed 'data caps' on their plans to squeeze more money out of customers to satisfy the sterotypical American greed. AT&T and T-Mobile are the only carriers providing nation-wide TDMA/GSM service. If the sale is allowed, only AT&T would remain, worsening the abuse of consumers. Don't let this happen!
1,725. Nero Keo	Lowell, MA	i rather deal with t-moible instead of att, tmobile rather gives us more choice and option, so why merge?

1,733. April Durden	Mobile, AL

1,736. Martin Kinnamon	Oklahoma City, OK	Please do not harm the already fuel strapped American public barely making ends meet by allowing AT&T to monopolize our needed communications ability. If this merger goes through, AT&T will charge exactly what they want and put the rest of us into the poor house.

1,765. Michael Argueta	Burbank, CA	We've had at&t for years. Those years were filled with dropped calls, poor internet service, and increasing rates, when they already overcharge to begin with! Deny the merger!
1,766. Nikhil Sankpal	Bartlett, IL	As a consumer, I should be entitled to multiple choices when purchasing a service. This merger would significant hamper my ability to do that. I've been an extremely satisfied T-Mobile customer for 10 years (going back to Voice Stream). I've had mobile phone accounts through Sprint and AT&T with previous jobs and have been very dissatisfied with their service, or lack there of. The result of this merger will effectively only allow me one choice when choosing a major wireless carrier in the future.

1,776. Claudine Gandolfi	Hartsdale, NY	This deal limits the choices out there to all cell phone users, will raise prices, create monopolies, and is generally poor in terms of choice. It will probably drive Sprint/Nextel away leaving only AT&T and Verizon. I have no love for either company and don't want them for my ONLY choices. And I live in a major metropolitan market! This is unfair to the consumer.
1,777. Shelila Towns	Westland, MI

1,779. Craig Pereira	Maineville, OH	Cannot believe this is happening. Was finally growing to love TMO with the new top of the line Android device (LG G2X), and their customer service and prices are impossible to beat. Very disappointed if this deal goes through.
1,780. J Adams	Rockville, MD	This will be unhealthy for competition. Everyone knows it, so why will it go through? Because some AT&T lobbyist will throw money at the FCC and Congress? What happened to serving the public?
1,781. George Faris	Fall River, MA	I do not want AT&T as my mobile provider. If I did, I would have signed up for their service - not be forced into it!
1,782. Denise Humphries	Lawrenceville, GA	When AT&T took over Cingular, my phone stopped working properly. 4G is a hype. And monopolies should not exist. This entire deal is completely harmful to the consumers in the U.S.

1,784. Felecia Turner	decatur, GA	T-mobile has the best plans for me and my daughter (family plan-unlimited everything!), I actually get a 10% discount with them via the company I work for, this is so unfair for those of us LOYAL customers of to have to be almost forced to be carried by a company we did NOT choose in the first place! 1,793. Melissa Smith	Wilmington, NC	Michael Balmoris, AT&T's spokesman, was quoted as saying "We are confident that the facts will demonstrate that the deal is in the public interest and that competition will continue to flourish." How does being the nation's only GSM network encourage competition? It's a move toward monopolization and it's not ok.
1,794. Ruel McBean	Lithonia, GA	AT&T rates are higher than T-Mobile. I feel that we will receive poor phone service not to mention poor customer service. I will more than likely cancel my contract if the merge go through with AT&T.
1,795. Darroll Miller	Dallas, GA	T-Mobile gave me a chance when no other Cell phone company would. They have the best plans and I also get a 10% discount because of the company I work for.
1,796. Erica Osslund	Escondido, CA	I protest this merger completely, i was with cingular before ATT bought them out they took a good company and made it awful. They customer service people are down right rude. Tmobile offers the best customer service at the best prices, This will eliminate competion, which is always bad, shrink jobs, which we can ill afford, and ruin a great company.
1,797. Yvonne Wang	Redmond, WA	
1,798. Joe Svetz	Folsom, CA	AT&T is everything a business should NOT be - they do just enough to get by and add the lowest value per dollar of any customer I know. I honestly can't understand why they're in business and continue to grow, but just like managers who are great at managing up and keep getting promoted while they make life miserable for those who report to them, AT&T must know the right people to please to keep themselves moving forward
1,799. Lucille A.	New York, NY	I love the low prices and great customer service of T-Mobile. My sister has AT&T and she drops a lot of calls and the customer service is bad too. The choice that a customer looking to purchase a cell phone must make should not be AT&T or CDMA, but rather it should be a choice between two or more providers that offer the type of network preferred by the customer. Since this acquisition would limit the number of GSM provider choices to one, it must not be allowed to be finalized.

1,904. Kristen Nassar	Springfield, MO	Please do not allow this to happen..
1,905. Terry Koyn	Saint Louis, MO	The takeover would have the following bad effects: --Gives AT&T too much spectrum hurting competition and would not be in the public interest. --Gives AT&T a monopoly on nationwide GSM coverage, a world standard preferred by travelers. --Reduces the number of nationwide cell phone companies to just two (AT&T and Verizon) and a marginal third provider, Sprint. --Puts T-Mobile employees out of their jobs. --Result in price increases in cellular service, especially for long time loyal T-Mobile customers on "grandfathered" plans. --A partial takeover with divestiture of some T-Mobile customers would have all the above harms, but hurt T-Mobile customers even more.
1,906. Guido Sarducci	Montgomery, IL	This deal would virtually eliminate all competition, leaving consumer with only 2 choices: Verizon or AT&T. Please do NOT approve this merger.
1,907. David Dao	Santa ana, CA	
1,908. Luis Maldonado	North miami, FL	Merging souls be the worst mistake t-mobile would do. I've been a customer since 2005 and it's because of t-mobiles prices and customer service. If the merge does happen rest assure that I will be going to metropcs or some other company instead of at&t. Customers don't want to pay more. T-mobile also offers the best phones in the market. AT&T knows what there trying to do. I just hope that the CEO and chairman of t-mobile don't let those dollar signs buy them out. T-mobile has also been good and keep getting better year after year. I belive they have a lot more to offer us, not At&t.....
1,909. Ben Garza	North highlands, CA	Tmobile don't give in, I was with Cingular when they got bought out by AT&T and I hated it so switched over to tmobile. I am a valued customer and appreciate your service. Tmobile will grow very large. Give it a longer chance to grow. And keep more options out there for us.

Since I travel the world I need a phone that I am familiar with (tmobile cell phones). Yes I make phone calls like everyone else but Tmobile allows US service member have his/her Tmobile locked phone become unlocked (without a fee) so we are able to SAVE money by purchasing a local sim card in overseas countries while still the same phone that was bought through tmobile. By doing this Tmobile gives us an option to use instead of pay those ridiculous roaming charges when calling home to friends and family by in the US.

2,002. German Saer	Overland Park, KS	Too much power in only one company. Market and devices will be monopolized. Like they did with iPhone, but now they will have more power
2,003. Geetu Mahajan	rockville, MD	I have been a T-mobile customer for the last 8 years. AT&T might be tempted to think that they will automatically get my business post-merger. I may remain without a wireless phone, but will never, never be an AT&T customer. T-mobile has one of the most loyal customer base, especially those who have been with them for years. For T-mobile to sell their customers to AT&T is beyond despicable. Shame on you, T-mobile for being such a sell-off.
2,004. Rashidah De Vore	New York, NY	The last time I checked, monopolies were illegal in this country! T-Mobile and AT&T are the only two providers on the GSM network, thus, merging the two will in fact create a monopoly. In addition, AT&T does not offer unlimited plans as T-Mobile does and will certainly do away with something T-Mobiles customers hold dear. The reason people leave AT&T is because it's an atrocious network! I was a former customer of Cingular Wireless before they too were devoured by AT&T and there is a reason I left after the merger! They changed everything about the network and manipulated it to be a duplicate of theirs. They will absolutely do the same with T-Mobile! PLEASE spread the word! Stop this!!

2,013. brandy neuleib	vancouver, WA	I am currently a t-mobile customer. I had AT&T in the past, until they split off and suddenly my carrier was Cingular. The customer service and coverage decreased significantly. Now that they are AT&T (again) the prices are the highest around. I choose T-mobile because I have good coverage at an affordable price. I have serious concerns that I will have either once they merge. Also, what will stop AT&T from selling out again and leaving all their customers holding the bag with poor service and quality.
2,014. Marshall wells	seneca, SC	
2,015. Richard Gragg	jacksonville beach, FL	I tried At&t for 12 days and couldn't get a signal while sitting on the couch...despite being told I was in the "best coverage" area. I decided to go outside to try and get a signal and was able to get a faint signal so I could call customer service...while standing outside again I was told I was in the "best coverage" area they had and that perhaps it was the brand new phone I had that was the issue. I returned the Samsung Vibrant for the iPhone 4 and still had the issue...called from outside again and the call dropped 3 times....some "best coverage". Switched to tmobile....voila.....not one problem with the Mytouch 4g.
2,016. Justin Frost	Chandler, AZ	
2,017. david ferril	Sun Valley, CA	as a t-mobile customer i can barely describe how mad i am about this potential deal, especially after leaving AT&T for t-mobile years ago because of high prices, and falsely "unlimited" service. 2,018. robert fu	saratoga, CA	This merger kills competition in multiple markets across the country. As it is, there is lack of competition and consumers are being over charged for voice service and text messages. Bulk of wireless traffic is due to smart phone data traffic. We need more competition to give consumer choices. I currently have prepaid voice plan with T-mobile. T-mobile is able to offer very low rates for consumers who needs very basic voice calling needs and provide excellent coverage. I currently pay \$10 per year to maintain a line with T-mobile. With ATT buyout of T-Mobile, this will all disappear. With AT&T, my cost will become \$100 per year. That is 10 times my current cost.

2,054. Marcelino Velazquez	Maybrook, NY	I worked for ATT as a sales consultant during the buyout of a small cellphone in upstate NY called cellular one owned by Dobson communications. ATT says yes they'll agree to past contractual terms but once the contract is over. They got you. If your phone breaks and you don't have insurance you better get ready to switch over to a ATT new pricing plan and new terms. You got to sign a new contract and pay the heft price increases with no discounts for being a past acquired phone company customer. Grandfathered rates yeah until you need a new service. They got you. Those acquired customers were treated like second class citizens. The truth is less competition isn't good for consumers.

2,070. Margie Llonillo	Woodhaven, MI	People with Sprint need to wake up and petition this merger too! This deal will most likely set the stage for a possible Verizon buyout of Sprint, leaving just 2 main players in the wireless market. Without quality competition prices on phones and plans will skyrocket even more then they are now! Look at Canada for example. A regular 2 GB data plan buy itself not including your normal phone service is \$80! Working in Detroit, I know a lot of people from Windsor Canada who have smartphones for work, who have a average wireless bill of over \$130 a phone. That's where we are heading to! Data plans are now 3x higher then they were just 4 years ago. Doesn't take a genius to figure this one out!

2,079. Martin Okekearu	Kansas City, MO	
2,080. David Rose	Saint Charles, MO	This will reduce nationwide competition and the consumer cost with only 2 other remaining nationwide providers will certainly increase. The wireless spectrum development was not intended to be reduced to 2 major nationwide providers as it was originally in the mid 1980's. The FCC spectrum should have a choice for a nationwide GSM provider, as AT&T will solely control and dictate terms of the GSM device market in the United States if this buy out proceeds. One of many reasons we selected T-Mobile is that my family cost for service including texting is about \$25 a month less than comparable plans I can get from AT&T, Verizon or Sprint.

2,132. paul do	Jersey City, NJ	I get a great price + service from T-Mobile, using my own purchased unlocked phone. I made a concious decision to switch because I didn't like AT&T's service and pricing. If this goes through, there won't be any other viable GSM providers, and you can't really travel with Sprint or Verizon overseas without a Global Phone. 2,144. Jonathan Wallers	Clovis, CA	Currently, T-mobile is the most economical wireless provider with rates 30-40% that of all other carriers, including AT&T. If AT&T acquires T-mobile, there would be a huge increase in monthly rates to match AT&T's current rates. This is bad for people on budgets that can't afford "high priced" wireless service. Additionally, T-mobile has one of the highest rated customer service departments compared to AT&T's worst ranked customer service. 2,156. Carrie Kordys	Atlanta, GA	Competition among cell phone service providers has shrunk because of AT&T! And if AT&T is allowed to continue to eat up all the other providers, eventually AT&T will be the ONLY provider! I came to T-Mobile from AT&T over 10 years ago, because of AT&T's deplorable service, and it's been blue skies and rainbows ever since! T-Mobile selling itself, especially to that big, nasty monster AT&T, would be the absolute WORST customer service I've ever received.

2,158. Martin Tanner	Atlanta, GA	Lower prices of goods and services are directly related to competition. We want companies to compete for our business, not jack up the price because we have no alternatives. Don't sell out T-Mobile!
2,159. R Wood	Brookhaven, PA	The primary reason I have been with T-mobile for over 7 years is because their rates are the lowest and they offer what I want. If AT&T is allowed to buy T-mobile I figure it will cost me over 100 dollars more a year to have LESS service. Can AT&T match my \$39 plan (plus taxes) that includes 500 anytime minutes (more than I need), unlimited nights and weekends and unlimited text? This significant rise in cost for the consumer while delivering less in service and quality is why this merger must not happen. It will not lower prices as claimed and it will not benefit consumers as claimed.

2,221. Keith Mitchell	New Haven, CT	I and my girlfriend (and her mother) are Simple Mobile subscribers, and this merger will more than likely destroy the best MVNO plan available on the market that meets our specific needs. This merger does not create a duopoly as most state. It creates a monopoly in the U.S. GSM market. T-Mobile and AT&T are the only two major GSM carriers and if they merge, is it not a technical violation of the anti-trust & monopoly law of 1945?

2,231. Dean Thompson	Catonsville, MD	As a previous AT&T customer, I am aware of the borderline deceptive, evasive and relentless tactics of this company. Ive been with tmobile for over 9 yrs. And never once did I feel the way AT&T made me feel. I had AT&Ts long distance: Unsatisfied. AT&Ts Internet Service: Unsatisfied. AT&Ts Cell Phone Service: Unsatisfied. I have also bought AT&T cordless phones for my home that were cheap and unrepairable. Bought 3 and had to replace 2 in 1 year. This company is a customers nightmare. They are a joke in the industry. The Iphone saved them and now that they lost exclusivity they know the mass exitus is inevitable. So to maintain its number of customers, its going after Tmobile customers.

I know quite a few people that have AT&T in Los Lunas and they're constantly having problems with the network and customer service: dropped calls, no internet service, slow 4G, etc. I plead to T-Mobile: PLEASE have some consideration for the customers that have been faithful to T-Mobile and stay in business. Thank you.

2,268. Kent Aggers	Spokane, WA	Please do not allow AT&T to buy T-Mobile. This will destroy competition in the cell phone industry at a time when land lines are going the way of the dinosaur. At&T has terrible customer service and pricing and will only turn their T-Mobile customers to that as the industry is taken over by Verizon and AT&T. Please stop this merger and keep the industry competitive.

2,274. Shirley Sibilla	Sun City, AZ	Bad idea to merge T-Mobile with AT&T. I am aware ATT contributes heavily to the Republican party - this must not be allowed to happen. No more monopolies, please. I am a long time T-mobile user - leave it alone.
2,275. Mark King	Seffner, FL	I have been a Tmobile customer since almost the begining and am outraged by this merge. At&t is a horrible company with an awful bussiness model and I can guarantee if this deal gets approved I will get my service elsewhere.

2,280. Dan Aguirre	North Haledon, NJ	AT&T and Verizon are the most expensive carriers. A merger between AT&T and T-mobile will remove t-Mobile the most competitive carrier off the market. Verizon and AT&T should not control 80% of the market that is as close duology as there is.

2,281. Illana Stanley	Boston, MA	I only recently became a T-mobile customer and one of the reasons I did so was because I didn't want to support Verizon or AT&T, two companies that I already thought had too much market share and unfriendly practices towards consumers. T-mobile offers affordable non-contract prices that I think the entire industry should adopt especially as high price smartphones with extremely expensive data plans become more popular. I honestly have no idea what I will do for cell phone service if this deal goes through but none of my options will be ideal which should just serve as an example of how this deal with dangerously restrict consumer choice and competition in a very important market.
2,282. C Meyer	Monterey Park, CA	If this happens, more people will become rebellious towards everything. We could have our very own Che Guevara coming out of all this. Who knows.
2,283. Joshua Goeken	Virginia Beach, VA	By far the best customer service i have had from cell phone companies and reasonably priced.
2,284. Alexandre Emelianov	Tarzana, CA	Please do your job as our representative and protect us, the people. AT&T will not have to compete against another cell/3g provider, and everyone is going to lose except the AT&T bottom line. Are you on the side of EVERYONE or just AT&T?!
2,285. Jesse Molina	Phoenix, AZ	I strongly oppose the buyout of T-Mobile by AT&T on grounds that it will greatly reduce business competition, is a bad deal for T-Mobile customers, and is ultimately harmful to the wireless communications infrastructure of the entire United States. I will be writing to the FCC and my elected officials asking them to prevent this from happening.
2,286. Daniel Mammah	Lansing, MI	This is forcing the blue collar worker to move to a cheap prepaid phone that does not suit him/her in the way he/she needs it to. AT&T has ridiculous prices and cause THE PAYING CUSTOMER to PAY EVEN MORE. It's not right, please correct this.
2,287. Marshall Sontag	berkeley, CA	I strongly oppose this. AT&T will decrease the quality of service available across the country. Please act on this now.
2,288. Pam Boland	Grovetown, GA	I am against AT&T's acquisition of T-Mobile. If it happens, I don't even care if I lose access to a GSM carrier....I will not sign up to a T-Mobile contract again.

2,293. Pamala Mitchell	Edmonds, WA	there is a reason that ma bell was broken up in the past. Taking away competion in the phone industry will again put customers at the mercy of a monopoly. Also, after I have bought my phone I should be given the right to unlock. This hold att has over customers FORCES them to pay outrageous fees when travelling abroad, by making it impossible to use a local SIM card!
2,294. Timothy Banks	Livermore, CA	I hope that this petition is also forwarded to the SEC for their review when deciding upon whether or not this would be Anti-Competitive, which I strongly believe that it would be. I have left AT&T before due to their excessive pricing, device limitations, and horrible customer services and will do it again, should this acquisition be approved. I really believed that the Obama Administration would stop the Old Monopolies from reforming, prevent New Monopolies from being granted, and break up monopolies that were allowed under previous administrations but thus far, it's business as usual.....
2,295. suzie rudloff	Oakland, CA	Too much power is never a good thing. Stop this from happening, it's all about greed and we have enough greedy companies in the US. The reason use Tmobile is because I can afford it. I can't afford AT&T.
2,296. Karin Hofmeister	Galloway, OH	PLEASE don't let this merger go through! I want my T-Mobile just as they are!! Their reception is SO great! What's a dropped call? Please, FCC, see this for what it is, a monopoly!! Thank you!!

2,298. Kris de koning	chula vista, CA	This merger is bad for the consumers as well as the economy as a whole. ATT and Verizon are planning a doupoly. I'm using my iPhone on TMobile now and get unlimited web, unlimited talk, and unlimited messaging for half the price of what ATT was charging, but ATT doesn't even have an unlimited plan. I have 3 lines and pay over \$150.00 a month now for service when you earn 23k thats a lot of money but we have to have the cell phones because there are NO PAY PHONES anywhere now. 2,340. ERICA GUTIERREZ	VICTORIA, TN	
2,341. Audrey Low	Chapel Hill, NC	This merger would give AT&T a monopoly over the entire national GSM network. Although there would be some competition from CDMA carriers, customers who travel or otherwise require the global standard would have zero choice in carrier. T-Mobile keeps prices in check, and if the merger does go through, existing customers should at least have their prices locked in permanently.
2,342. Vanessa Centeio	Murray, KY	Hold times now are already indicators of what Tmobile customers will have to deal with once AT&T takes over!

2,349. Michael Wahlster	Claremont, CA	With this merger, the more restrictive, more expensive AT&T would be de-facto the only GSM service in the U.S. Monocultures and monopolies are bad for consumers.
2,350. Barbara Ziering	Culver City, CA	AT&T are liars. When disputing any billing issues they have skilled liars that will make up things to wear you out trying to dispute them.
2,351. Shanon Corso	Paradise, CA	
2,352. keleon Rockett	Three rivers, MI	This would greatly reduce competition and innovation in the industry. T-mobile is one of the most innovative wireless companies in the U.S. as it was the first to embrace Android, bring about wifi calling as well as home phone calling via your home internet connect. Please don't allow the GSM technology in this great country become monopolized. Doing so would reduce competition, rise prices, and reduce innovation. It should be noted that most likely if not for T-mobile's aggressive approach with it's HSPA+ 4G roll out ATT probably would not have felt any pressure to roll out their own HSPA+ network.

2,353. Dante Suarez	Union City, NJ	I'm afraid that if this deal does go through the options of choice and affordability will disappear. AT&T will clearly have a monopoly (or duopoly if you include Verizon) and will charge whatever they feel. Look at the pricing increase they announced just recently. Promises of T-Mobile customers being able to keep there plans and price points will go out the window once those people want to upgrade to a new phone. I don't see any positive outcome for us T-Mobile customers.
2,354. Andy Reenalda	San Jose, CA	A GSM Monopoly would be bad... AT&T charges more for less. All they will do is raise rates. T-Mobile's Customer Service is outstanding.

2,365. Miguel Naranjo	Orlando, FL	At&t will eliminate low cost services and will continue to charge for unused data. Having only 1 major GSM carrier will put us at the mercy of AT&T. This deal cannot go through!
2,366. Tom Baumler	Andover, MN	Combining them does not help the consumer
2,367. Jennifer Luna	Bronx, NY	We as consumers want to be able to choose a provider with high satisfaction ratings, low rates, and high quality wireless service. This acquisition will allow AT&T to move towards monopolizing the wireless service industry at the expense of consumers. The only way to prevent this is for the FCC to not approve this deal. Please act now to keep an option of excellent quality and service in the wireless provider industry. T-Mobile customer since 2003!!!

2,368. Robert Edwards	Edmonds, WA	The reduction of major carriers from 4 to 3 goes against what was intended for PCS, IE six carriers. Allowing T-Mobile to be bought will bring pressure for Sprint to be sold. This will lead to a duopoly.
2,369. Robin Van Agtmael	Aumsville, OR	
2,370. j morales	bronx, NY	this would be terrible. if atnt buys out tmobile, what are people who want GOOD customer service and wide variety of options do?
2,371. Charles Srstka	Evanston, IL	It's an utter no-brainer that this merger will reduce competition. The two big cell companies don't really compete with each other — they routinely match each other on pricing. T-Mobile and Sprint are the only national carriers that are competitive in terms of rate plans and prices — because they have to be! If the small carriers are gone and only the giants remain, there will not be anywhere near the current level of competition — both VZW and AT&T can easily get by without having to compete due to their sheer size.

2,376. Kyle Gundy	Pittsburgh, PA	Retain GSM (Global Systems for Mobile Communicaton) competition in the USA. T-Mobile USA brings a touch of European wireless experience to the market, and is the ONLY option for non-subsidized hardware subscriber rate plans (with Even More Plus). Keep T-Mobile as an alternate option.
2,377. shawn kimmel	portland, OR	This takeover would be absolutely absurd to let happen. I know myself and others that will never vote for anyone that gives this the go ahead to happen. it is in an injustice to consumers and to the people that work for T-Mobile, as I'm sure this will mean jobs lost and that will look bad on you as well.
2,378. Ken Bruning	Grand Rapids, MI	Allowing this merger will create a GSM monopoly and takes us one step closer to a wireless duopoly. This would be horrible for consumers. There are too few major wireless companies as it is.

For the telecommunication industry and the public this forced this dinosaur industry to turn into an advanced technological industry where innovation and competition meant better products and lower prices. This merger would mean that we are left with two large providers and a few small ones. This means less competition and higher prices. It will also mean less innovation since it will allow the two major players to slow down their product development cycles. This merger is bad for the consumer.

2,442. Mike Gutt	Pawtucket, RI	I will not join AT&T if this happens. Verizon or Sprint will gain my families account which we have had for over 6 years with T-Mobile. Why would we want to go from amazing customer service and pricing to a carrier that has no positive qualities in any aspect of their business.
2,443. austin bishop	austin, TN	Att continues its plan for domination of american access to media, television and wireless services. At&t should not be allowed to bully and lessen the choices for a provider of services. Stop!

2,454.	Nita Brown	brooklyn, NY	I hate AT&T !! they will rape me blind with their tax
2,455.	Stefanie Buzzetta	St. Louis, MO	I have had complaint-free service ever since I signed onto T-Mobile many years ago. I am not impressed by AT&T's prices, nor their customer service. I'd rather have a pager than be forced to choose between Verizon & AT&T. I made my decision back when I researched cellular companies & my choice was (& still is) T-Mobile.
2,456.	Alexander MacDonald	Ballwin, MO	I feel this merger will cause chaos for current Tmobile customers. They will have to purchase new phones and will lose a choice AT&T only wants to acquire the towers they do not care about the public.
2,457.	Kris Sabo	Lakewood, CO	This would create a GSM monopoly.
2,458.	Justin Boie	Big Lake, MN	I joined Aerial Communications in May 97, then Voicestream came, then T-mobile, and this is the first time I have had to say NO. It's clear that this merger is not about the customers, its about greed. I am one of the few that still believe greed is a bad thing. I have been a loyal customer for 14 years because my cell phone company put the customer first. That kind of service will end if this merger happens. If you ask ANYONE who has had AT&T, or look at their record on consumer reports. The icing on the cake is the frequencies our phones use will be re-purposed, rendering our phones dead if we want to communicate with anyone. AT&T makes billions, and we lose our phones. No thanks AT&T.

Does anyone really believe that ATT is purely buying TMobile for wireless spectrum (a public resource)? ATT already has so much spectrum that isn't being used. Don't let this buyout happen!
2,475. Elon Lindsay	Chicago, IL	Allowing AT&T to buy out the company that creates the competitive edge for consumers to gain the best and most fair market value. AT&T is attempting to monopolize the wireless service provider industry by creating exclusive agreements with companies like Apple, and buying out more competitive service providers like T-Mobile. This is identical to the buyout of Cingular and in the end, the customers are the ones who lose most.
2,476. Tabatha Garcia	Alice, TX	I have been a t-mobile / omnipoint /.voicestream customer since 2001 and it will be a horrible day if and when ATT finally takes over for my beloved T-Mobile ... 2,487. Jamie Browder	Lanett, AL	
2,488. Ray Vigil	Santaquin, UT	Tmobile is in my personal opinion the best provider out there. Being forced to change to a by far worse company is results ridiculous. It will also be cutting down the cell phone market, which should never happen in any market.
2,489. Jacqueline Moser	Mpls, MN	Are they trying to become a monopoly: I thought those were not allowed...This is going to bump the prices up because the competition is becoming less. Not to mention it will allow for poor customer service.
2,490. Richard malone	port st lucir, FL	This absolutely unfair to t-mobile customers. Att will force them to pay more and get less...sound good for our economy? I don't think so
2,491. Nicholas Logiodice	Port Saint Lucie, FL	This is just another step towards monopolizing our economy, T mobile is a company that has great service, and cheap prices , and the latest technology its what everyone wants in a cell phone company..and now we will be forced to be price gauged if at&t buys t-mobile. IT IS NOT FAIR, At&t has no good values and will never lower prices, this is a bad bad bad thing for the economy.
2,492. Drew Perry	Melbourne, FL	The proposed acquisition of T-Mobile USA by AT&T has been a devastating detriment to the psyche of each and every loyal customer of T-Mobile USA. If this deal is indeed approved, authorized, and initiated; a ripple effect of unimaginable proportions will negatively shift the axis of the mobile phone network operators and garner an innumerable loss of profits for mobile network operators worldwide. Plus I almost forgot to mention, AT&T will be the ONLY U.S national carrier with sim card capability. Also I say that I am exuberantly proud to be part of The Best Damn Mobile Network Operator in the World...T-Mobile! "We will not go quietly into the night; we will not vanish without a fight"!!!

2,499. Mary Workman	Lakewood, CA	This is a bad idea. How will limiting the number of companies out there help the customer. It will not. It will cut down our choices and empower them. No to this idea.
2,500. Ricky Ramsey	Columbia, SC	I've been a T-mobile customer since they bought out Suncom. At first, I considered trying new service else where. But it was the great customer service I received from T-mobile that persuaded me to stay. If the customer service is as terrible as current at&t customers say, Verizon here I come. That's actually sad seeing that I really don't want to go to Verizon.
2,501. Jonathan Drake	Bellevue, WA	The only party this benefits is the stock holders of AT&T
2,502. Michelle Hagar	charleston, SC	I have been with tmobile since the Suncom days. The customer services and pricing for grandfathered in plans can't be beat. Nothing good can come with merging with ATT. Except for maybe stock holders.

I don't like how AT&T just charges for everything and they have capped their data services while T-Mobile is offering an unlimited plan. I travel out of the country a lot and GSM phones work in most of the world so I do not want to be in AT&T's hands and corporate list as a customer. I like T-Mobile better. I SAY NO TO THE MERGE!

2,529. Craig Stalcup	Indianapolis, IN	As a consumer I oppose this merger because T-Mobile's service plans are better and cheaper than AT&T's. As a concerned citizen I oppose this merger because it will result in a less dynamic U.S. wireless market with two players controlling nearly all wireless data and AT&T as the sole GSM provider in the U.S. This merger is bad for consumers and bad for the U.S.!

2,556. Linda Traylor	Houston, TX	Please keep AT&T from ruining T-Mobile. I am vehemently against this merger. How can the government approve a merger that will allow the worst carrier in the industry, ATT, to eliminate one of their biggest competitors? Tmobile is the lowest cost carrier in the US and ATT will force Tmobile customers to pay their higher fees while also killing Tmobile's 3G network in the process. I was an AT&T customer 6 years ago and they are the worst company I've ever dealt with. They have no ethics and likely won't even try to compensate or honor contracts for Tmobile customers that own 3G phones. This merger is a disaster for US wireless consumers. Less choices with phones as well as providers. 4. Highier monthly rates and hidden charges. 5. Limited usage with overage fees. 6. Which bothers me VERY much that ATT currently is telling people the deal is finalized and TMobile is officially part of ATT. It also explains why Verizon has no objections, as this merger only decreases competition. Furthermore, Android and other innovative phones / technologies have emerged in those nascent networks -- TMobile / Sprint -- first. As they had the largest incentive to innovate. The problem isn't with this merger. It's with the fact that Sprint will suffer as a result of this merger. Should Sprint suffer, we will find ourselves with two major players with very little incentive to innovate.

2,618. Kevin Mess	Henderson, NV	<p>GSM is the only world-wide standard for mobile phones. T-Mobile provides the only true alternative to AT&T for people who travel extensively. By allowing AT&T to acquire T-Mobile, this competitive alternative is eliminated.</p> <p>27 years ago AT&T was broken up because of its telecommunications monopoly. This allowed a surge of competition that has provided consumers with a greater variety of options at lower cost. Today AT&T has grown into a new monopoly as it consumes other carriers. With T-Mobile's acquisition, there will no longer be an option to AT&T for consumers requiring GSM service.</p> <p>We must stand up and have our voices counted. This cannot be allowed to happen!</p>
2,619. Seth Atkinson	Troutdale, OR	<p>I chose T-mobile because I was unhappy with AT&T, and Verizon, they were too expensive. Verizon and Sprint use technology that is being phased out which left me with T-mobile. T-mobile had lower prices and better customer care. If this deal goes through, I will lose my choice of</p> <p><i>(continues on next page)</i></p>

2,619. Seth Atkinson	Troutdale, OR	<i>(continued from previous page)</i> GSM carrier as even smaller carriers that use GSM technology will be forced to raise their rates to piggyback on AT&T's network. Please stop this merger, this would be an unfair monopoly on GSM technology.

2,621. M Justice	Destin, FL	I left att for tmobile. I do not want to be forced back.
2,622. Adam Ruggiero	Minneapolis, MN	
2,623. george rey	San Francisco, CA	it vitally important to encourage competition not to snuff it out. do not trust att or any corporation to protect the citizens of this country.
2,624. Nicholas Westgate	Bethlehem, PA	I had AT&T originally and had nothing but problems with them. They are a giant of a company that treats their customers like numbers and don't care about them. I switched to Cingular and was very happy, but then AT&T bought them, so I left and went to T-Mobile. I have had a better experience with them in the year that I've been a customer than I did in the almost 10 years with Cingular. I am very apposed to this merger based on AT&T track record. I don't see how regulations will change their company policy when the fact that they get rated low on customer service every year hasn't!
2,625. mark berue	bensalem, PA	Go to hell ATT
2,626. Leonard Gac	Fountain Valley, CA	There will be 10's of thousands of people unemployed. We already have unemployment at 12 percent. The price for service will increase by whatever AT&T/Verizon wants. We have laws in place (Anti Trust) that are supposed to prevent this from happening. they are just buying out their competition and making a Monopoly. STOP THE MERGER PLEASE.....
2,627. John Bachemin	Tomball, TX	This merger will only result in higher prices, less options and a decline in customer service for all t-mobile customers. It is not in the best interest of the american consumer.
2,628. Daniel Hardmeyer	Rancho Santa Margarita, CA	When AT&T merged with Cingular, they laid off everyone from Cingular. If this deal goes through, then the same will happen to us at T-Mobile. This will not only cost T-Mobile employees their jobs, but will hurt the entire wireless industry including (just to name a few) contractors who perform work on the network, tower/antenna/radio manufacturers, engineering and law firms who provide services to T-Mobile, landlords and cities who collect rent from T-Mobile sales/engineering/network facilities and cell sites, utility/cable/phone companies who provide the infrastructure for T-Mobile's network and facilities, and the list goes on and on. This merger would further hurt our already weak economy

2,630. Joshua Abramoff	Los Angeles, CA	The American people will not stand for this abomination! These companies must be regulated in the interests of the public. Do NOT let this merger happen.
2,631. Marshal Cooper	Detroit, MI	I have been an avid T-Mobile customer for over 8 years now, and have been completely satisfied with my service. It would be detrimental to us consumers if this merger went through. T-Mobile takes care of it's customers, period! We have heard time and time again that AT&T does not. I do not want to be forced to be with a carrier that I do not like. It's unconstitutional.
2,632. Philip Smith	Saint Petersburg, FL	We can't let Ma Bell own the consumer! Please keep customer service a priority...stop this merger!!
2,633. Kimberly Smith	Saint Petersburg, FL	I am a customer of t-mobile and like that I have a choice to my cell phone service of multiple companies. I am very please with t-mobile and would be very disappointed if I were to be forced to do business with another company.
2,634. Bobbi Kozel	West Grove, PA	We need more competition, not less.
2,635. Robert Esquibel	Albuquerque, NM	
2,636. Dan Printz	sacramento, CA	i'm one of many people that are NOT going to sign a new contract with T mobile and most certainly NOT with at&t.
2,637. Brittney Stalbaum	Las Vegas, NV	I have been with T-Mobile 8 years and love their customer service. I will not renew my contract if they are bought by AT&T. This is the worst news I've heard in a long time regarding business mergers.
2,638. Crystal Laursen	Henderson, NV	
2,639. Alexis Giles	West Jordan, UT	I chose to be in a contract w/TMobile NOT AT&T!!! I will NOT be forced an AT&T customer. I <3 TMobile!!!
2,640. Mike Williams	Grand Rapids, MI	I have also been a satisfied TMobile customer for many years. I do not want to be forced into the disaster that is AT&T's network!
2,641. David Davis	N Hollywood, CA	If you allow this deal Verizon is going to buy Sprint...this will be only two carreirs and the return of Ma Bell...
2,642. Kristi Romney	W Jordan, UT	I love T-Mobile. I don't love AT&T. Save T-Mobile!!!!
2,643. Nicole S	San Diego, CA	
2,644. Apryl Felder	Canton, GA	
2,645. Michael Sage	tucson, AZ	This merger would be a tragedy-please stop it.
2,646. D K	Philadelphia, PA	Do not let this happen!!! This will kill the market competition and innovation!!!
